INDEPENDENT AUDITOR'S REPORT

To the Shareholders and Management of Kredobank Group:

- 1 We have audited the accompanying consolidated financial statements of Public Joint Stock Company "Kredobank" and its subsidiary (the "Group") which comprise the consolidated statement of financial position as at 31 December 2013 and the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

- 2 Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

- 3 Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.
- 4 An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.
- 5 We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other matters

- 6 We draw your attention to Notes 2 and 36 to the consolidated financial statements. The operations of the Group, and those of other entities in Ukraine, have been affected and may continue to be affected for the foreseeable future by the continuing political and economic uncertainties in Ukraine. Our opinion is not qualified in respect of this matter.

Opinion

- 7 In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Group as of 31 December 2013, and its financial performance and its cash flows for the year then ended in accordance with International Financial Reporting Standards.

LLC AF PricewaterhouseCoopers (Audit)

1 Introduction

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards for the year ended 31 December 2013 for Public Joint Stock Company “Kredobank” (the “Bank”) and its subsidiaries (the “Group”).

The Bank was incorporated and is domiciled in Ukraine. The Bank is a public joint stock company limited by shares and was set up in accordance with Ukrainian regulations. As of 31 December 2013 and 2012 the Bank’s immediate parent company was PKO BP S.A. (Poland). The Bank is a part of the PKO BP S.A. Group (“PKO BP S.A. Group”). PKO BP S.A. Group is ultimately controlled by the State Treasury of Poland.

Principal activity. The Group’s main principal business activity is commercial and retail banking operations within Ukraine. The Bank was founded in 1990 as a joint stock company. Initially registered by the USSR State Bank, the Bank was re-registered by the National Bank of Ukraine (the “NBU”) on 14 October 1991 under the name of West-Ukrainian Commercial Bank. In 2002, the Bank was renamed as Kredyt Bank (Ukraina). In November 2005, the shareholders of the Bank made the decision to change the name to Kredobank. Under the decision of Extraordinary General Shareholders Meeting on 26 November 2009, the Bank changed its name to Public Joint Stock Company “KREDOBANK” in order to bring its activities into compliance with the requirements of the Law of Ukraine On Joint Stock Companies.

The Bank operates under licence # 43 issued on 11 October 2011, that provides the Bank with the right to conduct bank operations, including currency operations. The Bank also possesses licences for custodial services issued on 10 October 2013 and licences for securities operations issued on 7 November 2012. The Bank participates in the State deposit insurance scheme (registration # 51 dated 19 October 2012), which operates according to the Law “On Individuals Deposits Guarantee Fund” dated 23 February 2012 (as amended). Individuals Deposits Guarantee Fund guarantees repayment of individual deposits up to UAH 200 thousand (2012: UAH 200 thousand) per individual in case bank liquidation procedure is started.

As at 31 December 2013 the Bank has 1 branch and 130 outlets (2012: 1 branch and 130 outlets) within Ukraine.

Registered address and place of business. The Bank’s registered address and place of business is:

Saharova Str., 78
79026 Lviv,
Ukraine.

Presentation currency. These financial statements are presented in Ukrainian hryvnias (“UAH”), unless otherwise stated.

2 Operating Environment of the Group

The Ukrainian economy is considered to be developing and characterised by relatively high economic and political risks. The future stability of the Ukrainian economy is largely dependent upon reforms and the effectiveness of economic, financial and monetary measures undertaken by government, together with tax, legal, regulatory, and political developments. As a developing economy, it is vulnerable to market downturns and economic slowdowns elsewhere in the world. In 2013, the world demand for Ukraine’s main export commodities, steel and iron ore, was weak. The year was marked by one of the record crop harvests; however world prices for wheat, corn and sunflower seed reduced significantly due to peak harvests in other crop producing regions. In 2013 Ukraine’s GDP was flat year on year (2012: increase by 0.2%), while industrial output contracted by 4.7% (2012: reduction by 0.5%). The Government of Ukraine introduced a number of restrictions in relation to foreign exchange aiming to support the national currency, the Ukrainian Hryvnia. Inflation during the year was close to zero as the National Bank of Ukraine reduced the money supply. The national foreign exchange reserves reduced to the level of 3 month imports at year end due to reduced inflows from sale of commodities and agro produce, the need to settle scheduled payments, primarily with International Monetary Fund, and to pay the current and past purchase of natural gas.

2 Operating Environment of the Group (Continued)

The anticipated association agreement with the European Union was not signed at the end of November. The Government announced a deal with the Russian Federation for the purchase of Ukrainian Government bond up to USD 15 billion, of which USD 3 billion was provided in December 2013. The political system of Ukraine experienced instability with a number of protests against the Government's actions in late 2013 and street violence in January - February 2014. At the end of January 2014, the President of Ukraine accepted the resignation of Ukraine's Prime Minister. Continuous political unrest led to further deterioration of state finances, volatility of financial markets and sharp depreciation of the national currency against major foreign currencies. The ratings of Ukrainian sovereign debt have been downgraded by international rating agencies in January - February 2014 with negative outlooks. The central bank of Ukraine, among other measures, imposed certain restrictions on processing client payments by banks and on purchase of foreign currency on inter-bank market. All these factors may lead to deterioration in the quality of the Group's loan and investment portfolios and foreign exchange losses.

To stabilise the deteriorating political situation, the Parliament voted return of the 2004 Constitution and dismissed the President. On 26 February, the newly formed Parliament majority coalition appointed a Prime Minister and the Government. During January-February 2014, the Ukrainian Hryvnia saw a significant decrease in value against the major world currencies. The new Government called for immediate dialogue with the International Monetary Fund in order to provide financing and avoid possible default.

The situation in Ukraine is further jeopardised after capture of Crimean Parliament and Government buildings by unnamed armed forces followed by replacement of local Government, growing presence of Russian armed forces in Crimea, decision taken by Crimean parliament on joining the Russian Federation and signing the agreement between the Russian Federation and the Republic of Crimea on the accession of the Republic of Crimea to the Russian Federation on 18 March 2014.

As at 31 December 2013 the Group's assets and liabilities related to Crimea are as follows:

- Cash and cash equivalents in Crimean branches	UAH 7,526 thousand;
- Loans and advances to customers (after impairment provision)	UAH 63,827 thousand;
- Premises and equipment	UAH 14,808 thousand;
- Other assets	UAH 2,999 thousand;
- Customer accounts	UAH 44,063 thousand.

The management expects that the Group will incur losses in the amount of about UAH 74,660 thousand mainly due to difficulties with recovering assets located in Crimea or outstanding from entities resident in Crimea.

Also, as at 31 December 2013 the Group has significant investments in bonds issued by Ukrainian government in the amount of UAH 686,557 thousand. Timing of settlement of these balances is uncertain and is dependent upon the availability of State funds.

The final resolution and the effects of the political and economic crisis are difficult to predict but they may have further severe effects on the Ukrainian economy and the Group's business.

3 Summary of Significant Accounting Policies

Basis of preparation. These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") under the historical cost convention, as modified by the initial recognition of financial instruments based on fair value, and by the revaluation of premises, available for sale financial assets, and financial instruments categorised as at fair value through profit or loss. The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated (refer to Note 5).

3 Summary of Significant Accounting Policies (Continued)

Consolidated financial statements. Subsidiaries are those investees, including structured entities, that the Group controls because the Group (i) has power to direct relevant activities of the investees that significantly affect their returns, (ii) has exposure, or rights, to variable returns from its involvement with the investees, and (iii) has the ability to use its power over the investees to affect the amount of investor's returns. The existence and effect of substantive rights, including substantive potential voting rights, are considered when assessing whether the Group has power over another entity. For a right to be substantive, the holder must have practical ability to exercise that right when decisions about the direction of the relevant activities of the investee need to be made. The Group may have power over an investee even when it holds less than majority of voting power in an investee. In such a case, the Group assesses the size of its voting rights relative to the size and dispersion of holdings of the other vote holders to determine if it has de-facto power over the investee. Protective rights of other investors, such as those that relate to fundamental changes of investee's activities or apply only in exceptional circumstances, do not prevent the Group from controlling an investee. Subsidiaries are consolidated from the date on which control is transferred to the Group, and are deconsolidated from the date on which control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured at their fair values at the acquisition date, irrespective of the extent of any non-controlling interest.

The Group measures non-controlling interest that represents present ownership interest and entitles the holder to a proportionate share of net assets in the event of liquidation on a transaction by transaction basis, either at: (a) fair value, or (b) the non-controlling interest's proportionate share of net assets of the acquiree. Non-controlling interests that are not present ownership interests are measured at fair value.

Goodwill is measured by deducting the net assets of the acquiree from the aggregate of the consideration transferred for the acquiree, the amount of non-controlling interest in the acquiree and fair value of an interest in the acquiree held immediately before the acquisition date. Any negative amount ("negative goodwill") is recognised in profit or loss, after management reassesses whether it identified all the assets acquired and all liabilities and contingent liabilities assumed and reviews appropriateness of their measurement.

The consideration transferred for the acquiree is measured at the fair value of the assets given up, equity instruments issued and liabilities incurred or assumed, including fair value of assets or liabilities from contingent consideration arrangements but excludes acquisition related costs such as advisory, legal, valuation and similar professional services. Transaction costs related to the acquisition and incurred for issuing equity instruments are deducted from equity; transaction costs incurred for issuing debt as part of the business combination are deducted from the carrying amount of the debt and all other transaction costs associated with the acquisition are expensed.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated; unrealised losses are also eliminated unless the cost cannot be recovered. The Bank and all of its subsidiaries use uniform accounting policies consistent with the Group's policies.

Non-controlling interest is that part of the net results and of the equity of a subsidiary attributable to interests which are not owned, directly or indirectly, by the Bank. Non-controlling interest forms a separate component of the Group's equity.

Going concern. Management prepared these consolidated financial statements on a going concern basis. Refer to Note 4 for uncertainties related to events and conditions that may cast a significant doubt upon the Group's ability to continue as a going concern.

Financial instruments - key measurement terms. Depending on their classification financial instruments are carried at fair value or amortised cost as described below.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The best evidence of fair value is price in an active market. An active market is one in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis.

Fair value of financial instruments traded in an active market is measured as the product of the quoted price for the individual asset or liability and the quantity held by the entity. This is the case even if a market's normal daily trading volume is not sufficient to absorb the quantity held and placing orders to sell the position in a single transaction might affect the quoted price.

3 Summary of Significant Accounting Policies (Continued)

A portfolio of financial derivatives or other financial assets and liabilities that are not traded in an active market is measured at the fair value of a group of financial assets and financial liabilities on the basis of the price that would be received to sell a net long position (i.e. an asset) for a particular risk exposure or paid to transfer a net short position (i.e. a liability) for a particular risk exposure in an orderly transaction between market participants at the measurement date. This is applicable for assets carried at fair value on a recurring basis if the Group: (a) manages the group of financial assets and financial liabilities on the basis of the entity's net exposure to a particular market risk (or risks) or to the credit risk of a particular counterparty in accordance with the entity's documented risk management or investment strategy; (b) it provides information on that basis about the group of assets and liabilities to the entity's key management personnel; and (c) the market risks, including duration of the entity's exposure to a particular market risk (or risks) arising from the financial assets and financial liabilities is substantially the same.

Valuation techniques such as discounted cash flow models or models based on recent arm's length transactions or consideration of financial data of the investees, are used to measure fair value of certain financial instruments for which external market pricing information is not available. Fair value measurements are analysed by level in the fair value hierarchy as follows: (i) level one are measurements at quoted prices (unadjusted) in active markets for identical assets or liabilities, (ii) level two measurements are valuations techniques with all material inputs observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and (iii) level three measurements are valuations not based on solely observable market data (that is, the measurement requires significant unobservable inputs). Transfers between levels of the fair value hierarchy are deemed to have occurred at the end of the reporting period. Refer to Note 32.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial instrument. An incremental cost is one that would not have been incurred if the transaction had not taken place. Transaction costs include fees and commissions paid to agents (including employees acting as selling agents), advisors, brokers and dealers, levies by regulatory agencies and securities exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs.

Amortised cost is the amount at which the financial instrument was recognised at initial recognition less any principal repayments, plus accrued interest, and for financial assets less any write-down for incurred impairment losses. Accrued interest includes amortisation of transaction costs deferred at initial recognition and of any premium or discount to maturity amount using the effective interest method. Accrued interest income and accrued interest expense, including both accrued coupon and amortised discount or premium (including fees deferred at origination, if any), are not presented separately and are included in the carrying values of related items in the statement of financial position.

The effective interest method is a method of allocating interest income or interest expense over the relevant period so as to achieve a constant periodic rate of interest (effective interest rate) on the carrying amount. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts (excluding future credit losses) through the expected life of the financial instrument or a shorter period, if appropriate, to the net carrying amount of the financial instrument. The effective interest rate discounts cash flows of variable interest instruments to the next interest repricing date except for the premium or discount which reflects the credit spread over the floating rate specified in the instrument, or other variables that are not reset to market rates. Such premiums or discounts are amortised over the whole expected life of the instrument. The present value calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate.

Initial recognition of financial instruments. Derivatives and other financial instruments at fair value through profit or loss are initially recorded at fair value. All other financial instruments are initially recorded at fair value plus transaction costs. Fair value at initial recognition is best evidenced by the transaction price. A gain or loss on initial recognition is only recorded if there is a difference between fair value and transaction price which can be evidenced by other observable current market transactions in the same instrument or by a valuation technique whose inputs include only data from observable markets.

All purchases and sales of financial assets that require delivery within the time frame established by regulation or market convention ("regular way" purchases and sales) are recorded at trade date, which is the date that the Group commits to deliver a financial asset. All other purchases are recognised when the entity becomes a party to the contractual provisions of the instrument.

3 Summary of Significant Accounting Policies (Continued)

Derecognition of financial assets. The Group derecognises financial assets when (a) the assets are redeemed or the rights to cash flows from the assets otherwise expired, or (b) the Group has transferred the rights to the cash flows from the financial assets or entered into a qualifying pass-through arrangement while (i) also transferring substantially all the risks and rewards of ownership of the assets, or (ii) neither transferring nor retaining substantially all risks and rewards of ownership but not retaining control. Control is retained if the counterparty does not have the practical ability to sell the asset in its entirety to an unrelated third party without needing to impose restrictions on the sale.

Cash and cash equivalents. Cash and cash equivalents are items which are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. Cash and cash equivalents include unrestricted balances with the NBU and all interbank placements with original maturities of less than three months. Funds restricted for a period of more than three months on origination are excluded from cash and cash equivalents. Cash and cash equivalents are carried at amortised cost.

The payments or receipts presented in the statement of cash flows represent transfers of cash and cash equivalents by the Group, including amounts charged or credited to current accounts of the Group's counterparties held with the Group, such as loan interest income or principal collected by charging the customer's current account or interest payments or disbursement of loans credited to the customer's current account, which represents cash or cash equivalent from the customer's perspective.

Mandatory cash balances with the NBU. Mandatory cash balances with the NBU are carried at amortised cost and represent mandatory reserve deposits placed on separate account with the NBU which are not available to finance the Group's day to day operations and hence are not considered as part of cash and cash equivalents for the purposes of the statement of cash flows.

Securities at fair value through profit or loss. Securities at fair value through profit or loss are financial assets designated irrevocably, at initial recognition, into this category. Management designates securities into this category only if (a) such classification eliminates or significantly reduces an accounting mismatch that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases; or (b) a group of financial assets, financial liabilities or both is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information on that basis is regularly provided to and reviewed by the Group's key management personnel.

Securities at fair value through profit or loss are carried at fair value. Interest earned on securities at fair value through profit or loss calculated using the effective interest method is presented in profit or loss for the year as interest income. Dividends are included in dividend income within other operating income when the Group's right to receive the dividend payment is established and it is probable that the dividends will be collected. All other elements of the changes in the fair value and gains or losses on derecognition are recorded in profit or loss for the year as gains less losses from securities at fair value through profit or loss in the period in which they arise.

Due from other banks. Amounts due from other banks are recorded when the Group advances money to counterparty banks with no intention of trading the resulting unquoted non-derivative receivable due on fixed or determinable dates. Amounts due from other banks are carried at amortised cost.

Loans and advances to customers. Loans and advances to customers are recorded when the Group advances money to purchase or originate an unquoted non-derivative receivable from a customer due on fixed or determinable dates and has no intention of trading the receivable. Loans and advances to customers are carried at amortised cost.

Impairment of financial assets carried at amortised cost. Impairment losses are recognised in profit or loss for the year when incurred as a result of one or more events ("loss events") that occurred after the initial recognition of the financial asset and which have an impact on the amount or timing of the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated. If the Group determines that no objective evidence exists that impairment was incurred for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. The primary factors that the Group considers in determining whether a financial asset is impaired are its overdue status and realisability of related collateral, if any.

3 Summary of Significant Accounting Policies (Continued)

The following other principal criteria are also used to determine whether there is objective evidence that an impairment loss has occurred:

- any instalment is overdue and the late payment cannot be attributed to a delay caused by the settlement systems;
- the borrower experiences a significant financial difficulty as evidenced by the borrower's financial information that the Group obtains;
- the borrower considers bankruptcy or a financial reorganisation;
- there is an adverse change in the payment status of the borrower as a result of changes in the national or local economic conditions that impact the borrower;
- the value of collateral significantly decreases as a result of deteriorating market conditions;
- changes to contract with borrower in respect of extension of maturity, changes in payment schedule and other changes to initial contractual terms in order to avoid worsening of the borrower's solvency.

For the purposes of a collective evaluation of impairment, financial assets are grouped on the basis of similar credit risk characteristics. Those characteristics are relevant to the estimation of future cash flows for groups of such assets by being indicative of the debtors' ability to pay all amounts due according to the contractual terms of the assets being evaluated.

Future cash flows in a group of financial assets that are collectively evaluated for impairment are estimated on the basis of the contractual cash flows of the assets and the experience of management in respect of the extent to which amounts will become overdue as a result of past loss events and the success of recovery of overdue amounts. Past experience is adjusted on the basis of current observable data to reflect the effects of current conditions that did not affect past periods and to remove the effects of past conditions that do not exist currently.

If the terms of an impaired financial asset held at amortised cost are renegotiated or otherwise modified because of financial difficulties of the borrower or issuer, impairment is measured using the original effective interest rate before the modification of terms. The renegotiated asset is then derecognized and a new asset is recognized at its fair value only if the risks and rewards of the asset substantially changed.

This is normally evidenced by a substantial difference between the present values of the original cash flows and the new expected cash flows.

Impairment losses are always recognised through an allowance account to write down the asset's carrying amount to the present value of expected cash flows (which exclude future credit losses that have not been incurred) discounted at the original effective interest rate of the asset. The calculation of the present value of the estimated future cash flows of a collateralised financial asset reflects the cash flows that may result from foreclosure less costs for obtaining and selling the collateral, whether or not foreclosure is probable.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised (such as an improvement in the debtor's credit rating), the previously recognised impairment loss is reversed by adjusting the allowance account through profit or loss for the year.

Uncollectible assets are written off against the related impairment loss provision after all the necessary procedures to recover the asset have been completed and the amount of the loss has been determined. Subsequent recoveries of amounts previously written off are credited to impairment loss account in profit or loss for the year.

Repossessed collateral. Repossessed collateral represents financial and non-financial assets acquired by the Group in settlement of overdue loans. The assets are initially recognised at fair value when acquired and included in premises and equipment, other financial assets or inventories within other assets depending on their nature and the Group's intention in respect of recovery of these assets and are subsequently remeasured and accounted for in accordance with the accounting policies for these categories of assets.

Credit related commitments. The Group enters into credit related commitments, including commitments to extend loans, letters of credit and financial guarantees. Financial guarantees represent irrevocable assurances to make payments in the event that a customer cannot meet its obligations to third parties and carry the same credit risk as loans. Financial guarantees and commitments to provide a loan are initially recognised at their fair value, which is normally evidenced by the amount of fees received. This amount is amortised on a straight line basis over the life of the commitment, except for commitments to originate loans if it is probable that the Group will enter into a specific lending arrangement and does not expect to sell the resulting loan shortly after origination. Such loan commitment fees are deferred and included in the carrying value of the loan on initial recognition. At the end of each reporting period, the commitments are measured at the higher of (i) the remaining unamortised balance of the amount at initial recognition and (ii) the best estimate of expenditure required to settle the commitment at the end of each reporting period.

3 Summary of Significant Accounting Policies (Continued)

Investment securities available for sale. This classification includes investment securities which the Group intends to hold for an indefinite period of time and which may be sold in response to needs for liquidity or changes in interest rates, exchange rates or equity prices. The Group classifies investments as available for sale at the time of purchase.

Investment securities available for sale are carried at fair value. Interest income on available for sale debt securities is calculated using the effective interest method and recognised in profit or loss for the year. Dividends on available for sale equity instruments are recognised in profit or loss for the year when the Group's right to receive payment is established and it is probable that the dividends will be collected. All other elements of changes in the fair value are recognised in other comprehensive income until the investment is derecognised or impaired, at which time the cumulative gain or loss is reclassified from other comprehensive income to profit or loss for the year.

Impairment losses are recognised in profit or loss for the year when incurred as a result of one or more events ("loss events") that occurred after the initial recognition of investment securities available for sale. A significant or prolonged decline in the fair value of an equity security below its cost is an indicator that it is impaired. The cumulative impairment loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that asset previously recognised in profit or loss – is reclassified from other comprehensive income to profit or loss for the year. Impairment losses on equity instruments are not reversed and any subsequent gains are recognised in other comprehensive income. If, in a subsequent period, the fair value of a debt instrument classified as available for sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in profit or loss, the impairment loss is reversed through profit or loss for the year.

Sale and repurchase agreements. Sale and repurchase agreements ("repo agreements") which effectively provide a lender's return to the counterparty are treated as secured financing transactions. Securities sold under such sale and repurchase agreements are not derecognised. The securities are not reclassified in the statement of financial position unless the transferee has the right by contract or custom to sell or repledge the securities, in which case they are reclassified as repurchase receivables. The corresponding liability is presented within amounts due to other banks.

Securities purchased under agreements to resell ("reverse repo agreements") which effectively provide a lender's return to the Group are recorded as due from other banks or loans and advances to customers, as appropriate. The difference between the sale and repurchase price is treated as interest income and accrued over the life of repo agreements using the effective interest method.

Investment securities held to maturity. This classification includes quoted non-derivative financial assets with fixed or determinable payments and fixed maturities that the Group has both the intention and ability to hold to maturity. An investment is not classified as a held-to-maturity investment if the Group has the right to require that the issuer repay or redeem the investment before its maturity, because paying for such a feature is inconsistent with expressing an intention to hold the asset until maturity. Management determines the classification of investment securities held to maturity at their initial recognition and reassesses the appropriateness of that classification at the end of each reporting period. Investment securities held to maturity are carried at amortised cost.

Investment property. Investment property is property held by the Group to earn rental income or for capital appreciation, or both and which is not occupied by the Group. Investment property includes assets under construction for future use as investment property.

Investment property is initially recognised at cost, including transaction costs, and subsequently remeasured at fair value updated to reflect market conditions at the end of the reporting period. Fair value of investment property is the price that would be received from sale of the asset in an orderly transaction, without deduction of any transaction costs. As at 31 December 2013 fair value of the Group's investment property is determined based on internal management's assessments. The basis used for the appraisal was market value.

Earned rental income is recorded in profit or loss for the year within other operating income. Gains and losses resulting from changes in the fair value of investment property are recorded in profit or loss for the year and presented separately.

Premises, leasehold improvements and equipment. Premises, leasehold improvements and equipment are stated at cost, restated to the equivalent purchasing power of the Ukrainian hryvnia at 31 December 2000 for assets acquired prior to 1 January 2001, or revalued amounts, as described below, less accumulated depreciation and provision for impairment, where required.

3 Summary of Significant Accounting Policies (Continued)

During 2012 the Group changed its accounting policy in respect of measurement of the value of land and buildings, included in group “premises and leasehold improvements”, after recognition. Starting from 2012 land and buildings are recorded under the revaluation model. At the date of revaluation accumulated depreciation of buildings was eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset.

Land and buildings of the Group are subject to revaluation with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the end of the reporting period. Increases in the carrying amount arising on revaluation are credited to other comprehensive income and increase the revaluation surplus in equity. Decreases that offset previous increases of the same asset are recognised in other comprehensive income and decrease the previously recognised revaluation surplus in equity; all other decreases are charged to profit or loss for the year. The revaluation reserve for land and buildings included in equity is transferred directly to retained earnings when the revaluation surplus is realised on the retirement or disposal of the asset.

Land and buildings have been revalued to market value at 31 December 2013. The revaluation was performed based on internal management’s assessments. The basis used for the appraisal was market value.

Costs of minor repairs and maintenance are expensed when incurred. Costs of replacing major parts or components of premises and equipment items are capitalised and the replaced part is retired.

At the end of each reporting period management assesses whether there is any indication of impairment of premises, leasehold improvements and equipment. If any such indication exists, management estimates the recoverable amount, which is determined as the higher of an asset’s fair value less costs to sell and its value in use. The carrying amount is reduced to the recoverable amount and the impairment loss is recognised in profit or loss for the year. An impairment loss recognised for an asset in prior years is reversed if there has been a change in the estimates used to determine the asset’s value in use or fair value less costs to sell.

Gains and losses on disposals determined by comparing proceeds with carrying amount are recognised in profit or loss for the year (within other operating income or expenses).

Depreciation. Land and construction in progress are not depreciated. Depreciation of premises, leasehold improvements and equipment is calculated using the straight-line method to allocate their cost to their residual values over their estimated useful lives:

	<u>Useful lives in years</u>
Premises	60
Furniture and fixtures	5-15
Motor vehicles	5
Computers and equipment	5-15
Leasehold improvements	over the term of the underlying lease

The residual value of an asset is the estimated amount that the Group would currently obtain from disposal of the asset less the estimated costs of disposal, if the asset were already of the age and in the condition expected at the end of its useful life. The assets’ residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Intangible assets. The Group’s intangible assets have definite useful life and primarily include capitalised computer software.

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring them to use.

Development costs that are directly associated with identifiable and unique software controlled by the Group are recorded as intangible assets if an inflow of incremental economic benefits exceeding costs is probable. Capitalised costs include staff costs of the software development team and an appropriate portion of relevant overheads. All other costs associated with computer software, e.g. its maintenance, are expensed when incurred. Capitalised computer software is amortised on a straight line basis over expected useful lives of 15 years.

Operating leases. Where the Group is a lessee in a lease which does not transfer substantially all the risks and rewards incidental to ownership from the lessor to the Group, the total lease payments are charged to profit or loss on a straight-line basis over the period of the lease.

Leases embedded in other agreements are separated if (a) fulfilment of the arrangement is dependent on the use of a specific asset or assets and (b) the arrangement conveys a right to use the asset.

When assets are leased out under an operating lease, the lease payments receivable are recognised as rental income on a straight-line basis over the lease term.

3 Summary of Significant Accounting Policies (Continued)

Due to other banks. Amounts due to other banks are recorded when money or other assets are advanced to the Group by counterparty banks. The non-derivative liability is carried at amortised cost.

Customer accounts. Customer accounts are non-derivative liabilities to individuals, state or corporate customers and are carried at amortised cost.

Subordinated debt. Subordinated debt represents long-term borrowing agreements that, in case of the Group's default, would be secondary to the Group's primary debt obligations. Subordinated debt is carried at amortized cost.

Derivative financial instruments. Derivative financial instruments, including currency swaps are carried at their fair value.

All derivative instruments are carried as assets when fair value is positive and as liabilities when fair value is negative. Changes in the fair value of derivative instruments are included in profit or loss. The Group does not apply hedge accounting.

Certain derivative instruments embedded in other financial instruments are treated as separate derivative instruments when their risks and characteristics are not closely related to those of the host contract. If the Group is unable to measure the embedded derivative separately either at acquisition or at the end of a subsequent financial reporting period, the entire hybrid contract is designated as at fair value through profit or loss.

Income taxes. Income taxes have been provided for in the financial statements in accordance with Ukrainian legislation enacted or substantively enacted by the end of the reporting period. The income tax charge/(credit) comprises current tax and deferred tax and is recognised in profit or loss for the year except if it is recognised in other comprehensive income or directly in equity because it relates to transactions that are also recognised, in the same or a different period, in other comprehensive income or directly in equity.

Current tax is the amount expected to be paid to or recovered from the taxation authorities in respect of taxable profits or losses for the current and prior periods. Taxable profits or losses are based on estimates if financial statements are authorised prior to filing relevant tax returns. Taxes other than on income are recorded within administrative and other operating expenses.

Deferred income tax is provided using the balance sheet liability method for tax loss carry forwards and temporary differences arising between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. In accordance with the initial recognition exemption, deferred taxes are not recorded for temporary differences on initial recognition of an asset or a liability in a transaction other than a business combination if the transaction, when initially recorded, affects neither accounting nor taxable profit. Deferred tax balances are measured at tax rates enacted or substantively enacted at the end of the reporting period date which are expected to apply to the period when the temporary differences will reverse or the tax loss carry forwards will be utilised. Deferred tax assets for deductible temporary differences and tax loss carry forwards are recorded only to the extent that it is probable that future taxable profit will be available against which the deductions can be utilised. Deferred tax assets and liabilities are netted only within the individual companies of the Group.

Deferred income tax is not recognised on post acquisition retained earnings and other post acquisition movements in reserves of subsidiaries where the Group controls the subsidiary's dividend policy, and it is probable that the difference will not reverse through dividends or otherwise in the foreseeable future.

Uncertain tax positions. The Group's uncertain tax positions are reassessed by management at the end of each reporting period. Liabilities are recorded for income tax positions that are determined by management as more likely than not to result in additional taxes being levied if the positions were to be challenged by the tax authorities. The assessment is based on the interpretation of tax laws that have been enacted or substantively enacted by the end of each reporting period and any known court or other rulings on such issues. Liabilities for penalties, interest and taxes other than on income are recognised based on management's best estimate of the expenditure required to settle the obligations at the end of the reporting period.

Trade and other payables. Trade payables are accrued when the counterparty has performed its obligations under the contract and are carried at amortised cost.

Share capital. Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds. Any excess of the fair value of consideration received over the par value of shares issued is recorded as share premium in equity.

3 Summary of Significant Accounting Policies (Continued)

Income and expense recognition. Interest income and expense are recorded for all debt instruments on an accrual basis using the effective interest method. This method defers, as part of interest income or expense, all fees paid or received between the parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Fees integral to the effective interest rate include origination fees received or paid by the entity relating to the creation or acquisition of a financial asset or issuance of a financial liability, for example fees for evaluating creditworthiness, evaluating and recording guarantees or collateral, negotiating the terms of the instrument and for processing transaction documents. Commitment fees received by the Group to originate loans at market interest rates are integral to the effective interest rate if it is probable that the Group will enter into a specific lending arrangement and does not expect to sell the resulting loan shortly after origination. The Group does not designate loan commitments as financial liabilities at fair value through profit or loss.

When loans and other debt instruments become doubtful of collection, they are written down to the present value of expected cash inflows and interest income is thereafter recorded for the unwinding of the present value discount based on the asset's effective interest rate which was used to measure the impairment loss.

All other fees, commissions and other income and expense items are generally recorded on an accrual basis by reference to completion of the specific transaction assessed on the basis of the actual service provided as a proportion of the total services to be provided.

Commissions and fees arising from negotiating, or participating in the negotiation of a transaction for a third party, such as the acquisition of loans, shares or other securities or the purchase or sale of businesses, and which are earned on execution of the underlying transaction, are recorded on its completion.

Foreign currency translation. The functional currency of the Group's consolidated entities is the currency of the primary economic environment in which the entity operates. The functional currency of the Group's companies and the Group's presentation currency, is the national currency of Ukraine, Ukrainian hryvnias ("UAH").

Monetary assets and liabilities are translated into the Group's functional currency at the official exchange rate of the NBU at the end of the respective reporting period. Foreign exchange gains and losses resulting from the settlement of transactions and from the translation of monetary assets and liabilities into functional currency at year-end official exchange rates of the NBU are recognised in profit or loss. Translation at year-end rates does not apply to non-monetary items, including equity investments. Effects of exchange rate changes on the fair value of equity securities are recorded as part of the fair value gain or loss.

At 31 December 2013 the principal rate of exchange used for translating foreign currency balances were as follows:

	31 December 2013, UAH	31 December 2012, UAH
1 US dollar (USD)	7.993	7.993
1 euro (EUR)	11.04153	10.537172
1 Russian Rouble (RUR)	0.24497	0.263160

Offsetting. Financial assets and liabilities are offset and the net amount reported in the statement of financial position only when there is a legally enforceable right to offset the recognised amounts, and there is an intention to either settle on a net basis, or to realise the asset and settle the liability simultaneously.

Staff costs and related contributions. Wages, salaries, contributions to the Ukrainian state pension and social insurance funds, paid annual leave and sick leave, bonuses, and non-monetary benefits are accrued in the year in which the associated services are rendered by the employees of the Group. The Group has no legal or constructive obligation to make pension or similar benefit payments beyond the payments to the statutory defined contribution scheme.

Earnings per share. Earnings per share are determined by dividing the profit or loss attributable to owners of the Group by the weighted average number of participating shares outstanding during the reporting year.

Segment reporting. Operating segments are reported in a manner consistent with the internal reporting provided to the Board of the Bank being the Group's chief operating decision maker. Segments whose revenue, result or assets are ten percent or more of all the segments are reported separately. Geographical segments of the Group have been reported separately within these financial statements based on the ultimate domicile of the counterparty, e.g. based on economic risk rather than legal risk of the counterparty.

3 Summary of Significant Accounting Policies (Continued)

Changes in presentation. Where necessary, corresponding figures have been adjusted to conform to the presentation of the current year amounts.

Presentation of statement of financial position in order of liquidity. The Group does not have a clearly identifiable operating cycle and therefore does not present current and non-current assets and liabilities separately in the statement of financial position. Instead, assets and liabilities are presented in order of their liquidity. The following table provides information for each line item in the statement of financial position which combines amounts expected to be recovered or settled before and after twelve months after the reporting period.

	31 December 2013			31 December 2012		
	Amounts expected to be recovered or settled			Amounts expected to be recovered or settled		
	Within 12 months after the reporting period	After 12 months after the reporting period	Total	Within 12 months after the reporting period	Within 12 months after the reporting period	Total
<i>In thousands of Ukrainian hryvnias</i>

4 Critical Accounting Estimates, and Judgements in Applying Accounting Policies

The Group makes estimates and assumptions that affect the amounts recognised in the financial statements and the carrying amounts of assets and liabilities within the next financial year. Estimates and judgements are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Management also makes certain judgements, apart from those involving estimations, in the process of applying the accounting policies. Judgements that have the most significant effect on the amounts recognised in the financial statements and estimates that can cause a significant adjustment to the carrying amount of assets and liabilities within the next financial year include:

Going concern. Management prepared these financial statements on a going concern basis. In making this judgement management considered the Group's financial position, current intentions, continuing financial support from the parent company, budgeted profitability of future operations and access to financial resources and analysed the impact of the recent financial crisis on future operations of the Group.

Held-to-maturity financial assets. Management applies judgement in assessing whether financial assets can be categorised as held-to-maturity, in particular (a) its intention and ability to hold the assets to maturity and (b) whether the assets are quoted in an active market. If the Group fails to keep these investments to maturity other than in certain specific circumstances – for example, selling an insignificant amount close to maturity – it will be required to reclassify the entire class as available for sale. The investments would, therefore, be measured at fair value rather than amortised cost. If the entire class of held-to-maturity investments is tainted, the carrying amount would decrease by UAH 826 thousand (2012: UAH 724 thousand), with a corresponding entry in other comprehensive income.

Impairment losses on loans and advances. The Group regularly reviews its loan portfolios to assess impairment. In determining whether an impairment loss should be recorded in profit or loss for the year, the Group makes judgements as to whether there is any observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of loans before the decrease can be identified with an individual loan in that portfolio. This evidence may include observable data indicating that there has been an adverse change in the payment status of borrowers in a group, or national or local economic conditions that correlate with defaults on assets in the group. Management uses estimates based on historical loss experience for assets with credit risk characteristics and objective evidence of impairment similar to those in the portfolio when scheduling its future cash flows. The methodology and assumptions used for estimating both the amount and timing of future cash flows are reviewed regularly to reduce any differences between loss estimates and actual loss experience. To the extent that the assessed delay in repayment of principal on 5% of the total loans and advances to customers differs by +/- one month, the provision would be approximately UAH 412 thousand (2012: UAH 288 thousand) higher or UAH 193 thousand (2012: UAH 114 thousand) lower.

Impairment losses for individually significant loans are based on estimates of discounted future cash flows of the individual loans, taking into account repayments and realisation of any assets held as collateral against the loans. A 10% increase or decrease in the actual loss experience compared to the estimated future discounted cash flows from individually significant loans, which could arise from differences in amounts and timing of the cash flows, would result in an increase or decrease in loan impairment losses of UAH 26,395 thousand (2012: UAH 15,544 thousand), respectively.

Tax legislation. Ukrainian tax, currency and customs legislation is subject to varying interpretations. Refer to Note 31.

Initial recognition of related party transactions. In the normal course of business the Group enters into transactions with its related parties. IAS 39 requires initial recognition of financial instruments based on their fair values. Judgement is applied in determining if transactions are priced at market or non-market interest rates, where there is no active market for such transactions. The basis for judgement is pricing for similar types of transactions with unrelated parties and effective interest rate analysis. Terms and conditions of related party balances are disclosed in Note 34

**4 Critical Accounting Estimates, and Judgements in Applying Accounting Policies
(Continued)**

Deferred income tax asset recognition. The recognised deferred tax asset represents income taxes recoverable through future deductions from taxable profits and is recorded in the statement of financial position. Deferred income tax assets are recorded to the extent that realisation of the related tax benefit is probable. The future taxable profits and the amount of tax benefits that are probable in the future are based on a medium term business plan prepared by management and extrapolated results thereafter. The business plan is based on management's expectations that are believed to be reasonable under the circumstances. The Group is expected to generate the sustainable profits in the future. Key assumptions in the business plan include expected stabilization in the economy of Ukraine, gradual decline in interest rates (on loans and funding), moderate growth in loan portfolio, reduced loan loss provisions due to the expected improvement in economy and further enhancement of cost-control. Taking into account planned future profits and the fact that current Ukrainian tax legislation does not place limits on the term of utilization of tax losses carried forward, management believes that it is appropriate to recognise the deferred tax asset.

Valuation of own use premises. As stated in Note 3, land and buildings are subject to revaluation on a regular basis. As at 31 December 2013 the revaluation was performed based on internal management's assessments. The basis used for the appraisal was market value. When performing a revaluation, certain judgements and estimates are applied in determination of the comparative premises to be used in a sales comparison approach. Changes in assumptions about these factors could affect reported fair values. The valuation was based on comparative sales of land and buildings with the price per square meter varying from UAH 4,324 to UAH 21,960 for premises depending upon the location of premises. To the extent that the price per square meter differs by +/-5 percent, the fair value would be UAH 17,156 thousand higher or UAH 17,156 thousand for land and buildings.

Capitalization of technical support of main accounting system. As stated in Note 3, intangible assets include acquired computer software which, in its turn, includes capitalized technical support of this software. Management applies judgement to determine whether technical support increases economic benefits that will flow to the Group and that are attributable to specific software. If cost of technical support is expensed when incurred carrying value of intangible assets as at 31 December 2013 would be UAH 4,930 thousand (2012: UAH 6,101 thousand) lower and loss for 2013 would be higher by this amount.

5 Adoption of New or Revised Standards and Interpretations

The following new standards and interpretations became effective for the Group from 1 January 2013:

IFRS 10 “Consolidated Financial Statements” (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013) replaces all of the guidance on control and consolidation in IAS 27 “Consolidated and separate financial statements” and SIC-12 “Consolidation - special purpose entities”. IFRS 10 changes the definition of control so that the same criteria are applied to all entities to determine control. This definition is supported by extensive application guidance. The Standard did not have any material impact on the Group’s consolidated financial statements.

IFRS 11 “Joint Arrangements” (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013) replaces IAS 31 “Interests in Joint Ventures” and SIC-13 “Jointly Controlled Entities—Non-Monetary Contributions by Venturers”. Changes in the definitions have reduced the number of types of joint arrangements to two: joint operations and joint ventures. The existing policy choice of proportionate consolidation for jointly controlled entities has been eliminated. Equity accounting is mandatory for participants in joint ventures. The Standard did not have any material impact on the Group’s consolidated financial statements.

IFRS 12 “Disclosure of Interests in Other Entities” (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013) applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. It replaces the disclosure requirements previously found in IAS 28 “Investments in associates”. IFRS 12 requires entities to disclose information that helps financial statement readers to evaluate the nature, risks and financial effects associated with the entity’s interests in subsidiaries, associates, joint arrangements and unconsolidated structured entities. To meet these objectives, the new standard requires disclosures in a number of areas, including significant judgements and assumptions made in determining whether an entity controls, jointly controls, or significantly influences its interests in other entities, extended disclosures on share of non-controlling interests in group activities and cash flows, summarised financial information of subsidiaries with material non-controlling interests, and detailed disclosures of interests in unconsolidated structured entities. The Standard did not have any material impact on the Group’s consolidated financial statements.

IFRS 13 “Fair Value Measurement” (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013) improved consistency and reduced complexity by providing a revised definition of fair value, and a single source of fair value measurement and disclosure requirements for use across IFRSs.

IAS 27 “Separate Financial Statements” (revised in May 2011 and effective for annual periods beginning on or after 1 January 2013) was changed and its objective is now to prescribe the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. The guidance on control and consolidated financial statements was replaced by IFRS 10 “Consolidated Financial Statements”. The amended standard did not have any material impact on the Group’s consolidated financial statements.

IAS 28 “Investments in Associates and Joint Ventures” (revised in May 2011 and effective for annual periods beginning on or after 1 January 2013). The amendment of IAS 28 resulted from the Board’s project on joint ventures. When discussing that project, the Board decided to incorporate the accounting for joint ventures using the equity method into IAS 28 because this method is applicable to both joint ventures and associates. With this exception, other guidance remained unchanged. The amended standard did not have any material impact on the Group’s consolidated financial statements.

Amendments to IAS 1 “Presentation of Financial Statements” (issued in June 2011, effective for annual periods beginning on or after 1 July 2012) changed the disclosure of items presented in other comprehensive income. The amendments require entities to separate items presented in other comprehensive income into two groups, based on whether or not they may be reclassified to profit or loss in the future. The suggested title used by IAS 1 has changed to “statement of profit or loss and other comprehensive income”. The amended standard resulted in changed presentation of consolidated financial statements, but did not have any impact on measurement of transactions and balances.

5 Adoption of New or Revised Standards and Interpretations (Continued)

Amended IAS 19 “Employee Benefits” (issued in June 2011, effective for periods beginning on or after 1 January 2013) makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits, and to the disclosures for all employee benefits. The standard requires recognition of all changes in the net defined benefit liability (asset) when they occur, as follows: (i) service cost and net interest in profit or loss; and (ii) remeasurements in other comprehensive income. The Group reports accumulated amount of these remeasurements in retained earnings in equity.

“Disclosures - Offsetting Financial Assets and Financial Liabilities” - Amendments to IFRS 7 (issued in December 2011 and effective for annual periods beginning on or after 1 January 2013). The amendment requires disclosures that enable users of an entity’s consolidated financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off. The Standard did not have material impact on the Group’s consolidated financial statements.

Improvements to International Financial Reporting Standards (issued in May 2012 and effective for annual periods beginning 1 January 2013). The improvements consist of changes to five standards. IFRS 1 was amended to (i) clarify that an entity that resumes preparing its IFRS financial statements may either repeatedly apply IFRS 1 or apply all IFRSs retrospectively as if it had never stopped applying them, and (ii) to add an exemption from applying IAS 23 “Borrowing costs”, retrospectively by first-time adopters. IAS 1 was amended to clarify that explanatory notes are not required to support the third balance sheet presented at the beginning of the preceding period when it is provided because it was materially impacted by a retrospective restatement, changes in accounting policies or reclassifications for presentation purposes, while explanatory notes will be required when an entity voluntarily decides to provide additional comparative statements. IAS 16 was amended to clarify that servicing equipment that is used for more than one period is classified as property, plant and equipment rather than inventory. IAS 32 was amended to clarify that certain tax consequences of distributions to owners should be accounted for in the income statement as was always required by IAS 12. IAS 34 was amended to bring its requirements in line with IFRS 8. IAS 34 now requires disclosure of a measure of total assets and liabilities for an operating segment only if such information is regularly provided to chief operating decision maker and there has been a material change in those measures since the last annual consolidated financial statements. The amended standards did not have any material impact on the Group’s consolidated financial statements.

“Transition Guidance Amendments to IFRS 10, IFRS 11 and IFRS 12” (issued in June 2012 and effective for annual periods beginning 1 January 2013). The amendments clarify the transition guidance in IFRS 10 “Consolidated Financial Statements”. Entities adopting IFRS 10 should assess control at the first day of the annual period in which IFRS 10 is adopted, and if the consolidation conclusion under IFRS 10 differs from IAS 27 and SIC 12, the immediately preceding comparative period (that is, year 2012) is restated, unless impracticable. The amendments also provide additional transition relief in IFRS 10, IFRS 11 “Joint Arrangements” and IFRS 12 “Disclosure of Interests in Other Entities”, by limiting the requirement to provide adjusted comparative information only for the immediately preceding comparative period. Further, the amendments remove the requirement to present comparative information for disclosures related to unconsolidated structured entities for periods before IFRS 12 is first applied. The amended standards did not have any material impact on the Group’s consolidated financial statements other than application of the relief from disclosure of certain comparative information in the notes to the financial statements.

Other revised standards and interpretations: IFRIC 20 “Stripping Costs in the Production Phase of a Surface Mine”, considers when and how to account for the benefits arising from the stripping activity in mining industry. The interpretation did not have an impact on the Group’s consolidated financial statements. Amendments to IFRS 1 “First-time adoption of International Financial Reporting Standards - Government Loans”, which were issued in March 2012 and are effective for annual periods beginning 1 January 2013, give first-time adopters of IFRSs relief from full retrospective application of accounting requirements for loans from government at below market rates. The amendment is not relevant to the Group.

6 New Accounting Pronouncements

Certain new standards and interpretations have been issued that are mandatory for the annual periods beginning on or after 1 January 2014 or later, and which the Group has not early adopted.

IFRS 9 “Financial Instruments: Classification and Measurement”. Key features of the standard issued in November 2009 and amended in October 2010, December 2011 and November 2013 are:

- Financial assets are required to be classified into two measurement categories: those to be measured subsequently at fair value, and those to be measured subsequently at amortised cost. The decision is to be made at initial recognition. The classification depends on the entity’s business model for managing its financial instruments and the contractual cash flow characteristics of the instrument.
- An instrument is subsequently measured at amortised cost only if it is a debt instrument and both (i) the objective of the entity’s business model is to hold the asset to collect the contractual cash flows, and (ii) the asset’s contractual cash flows represent payments of principal and interest only (that is, it has only “basic loan features”). All other debt instruments are to be measured at fair value through profit or loss.
- All equity instruments are to be measured subsequently at fair value. Equity instruments that are held for trading will be measured at fair value through profit or loss. For all other equity investments, an irrevocable election can be made at initial recognition, to recognise unrealised and realised fair value gains and losses through other comprehensive income rather than profit or loss. There is to be no recycling of fair value gains and losses to profit or loss. This election may be made on an instrument-by-instrument basis. Dividends are to be presented in profit or loss, as long as they represent a return on investment.
- Most of the requirements in IAS 39 for classification and measurement of financial liabilities were carried forward unchanged to IFRS 9. The key change is that an entity will be required to present the effects of changes in own credit risk of financial liabilities designated at fair value through profit or loss in other comprehensive income.
- Hedge accounting requirements were amended to align accounting more closely with risk management. The standard provides entities with an accounting policy choice between applying the hedge accounting requirements of IFRS 9 and continuing to apply IAS 39 to all hedges because the standard currently does not address accounting for macro hedging.

The amendments made to IFRS 9 in November 2013 removed its mandatory effective date, thus making application of the standard voluntary. The Group does not intend to adopt the existing version of IFRS 9.

“Offsetting Financial Assets and Financial Liabilities” - Amendments to IAS 32 (issued in December 2011 and effective for annual periods beginning on or after 1 January 2014). The amendment added application guidance to IAS 32 to address inconsistencies identified in applying some of the offsetting criteria. This includes clarifying the meaning of ‘currently has a legally enforceable right of set-off’ and that some gross settlement systems may be considered equivalent to net settlement. The Group is considering the implications of the amendment and its impact on the Group.

“Amendments to IFRS 10, IFRS 12 and IAS 27 - Investment entities” (issued on 31 October 2012 and effective for annual periods beginning 1 January 2014). The amendment introduced a definition of an investment entity as an entity that (i) obtains funds from investors for the purpose of providing them with investment management services, (ii) commits to its investors that its business purpose is to invest funds solely for capital appreciation or investment income and (iii) measures and evaluates its investments on a fair value basis. An investment entity will be required to account for its subsidiaries at fair value through profit or loss, and to consolidate only those subsidiaries that provide services that are related to the entity’s investment activities. IFRS 12 was amended to introduce new disclosures, including any significant judgements made in determining whether an entity is an investment entity and information about financial or other support to an unconsolidated subsidiary, whether intended or already provided to the subsidiary. The Group does not expect the amendment to have any impact on its financial statements.

6 New Accounting Pronouncements (Continued)

IFRIC 21 – “Levies” (issued on 20 May 2013 and effective for annual periods beginning 1 January 2014). The interpretation clarifies the accounting for an obligation to pay a levy that is not income tax. The obligating event that gives rise to a liability is the event identified by the legislation that triggers the obligation to pay the levy. The fact that an entity is economically compelled to continue operating in a future period, or prepares its financial statements under the going concern assumption, does not create an obligation. The same recognition principles apply in interim and annual financial statements. The application of the interpretation to liabilities arising from emissions trading schemes is optional. The Group is currently assessing the impact of the amendments on its financial statements.

Amendments to IAS 36 – “Recoverable amount disclosures for non-financial assets” (issued in May 2013 and effective for annual periods beginning 1 January 2014; earlier application is permitted if IFRS 13 is applied for the same accounting and comparative period). The amendments remove the requirement to disclose the recoverable amount when a CGU contains goodwill or indefinite lived intangible assets but there has been no impairment. The Group is currently assessing the impact of the amendments on the disclosures in its financial statements.

Amendments to IAS 39 – “Novation of Derivatives and Continuation of Hedge Accounting” (issued in June 2013 and effective for annual periods beginning 1 January 2014). The amendments will allow hedge accounting to continue in a situation where a derivative, which has been designated as a hedging instrument, is novated (i.e. parties have agreed to replace their original counterparty with a new one) to effect clearing with a central counterparty as a result of laws or regulation, if specific conditions are met. The Group is currently assessing the impact of the amendments on the disclosures in its financial statements.

Amendments to IAS 19 – “Defined benefit plans: Employee contributions” (issued in November 2013 and effective for annual periods beginning 1 July 2014). The amendment allows entities to recognise employee contributions as a reduction in the service cost in the period in which the related employee service is rendered, instead of attributing the contributions to the periods of service, if the amount of the employee contributions is independent of the number of years of service. The amendment is not expected to have any material impact on the Group's financial statements.

Annual Improvements to IFRSs 2012 (issued in December 2013 and effective for annual periods beginning on or after 1 July 2014, unless otherwise stated below). The improvements consist of changes to seven standards.

IFRS 2 was amended to clarify the definition of a ‘vesting condition’ and to define separately ‘performance condition’ and ‘service condition’; The amendment is effective for share-based payment transactions for which the grant date is on or after 1 July 2014.

IFRS 3 was amended to clarify that (1) an obligation to pay contingent consideration which meets the definition of a financial instrument is classified as a financial liability or as equity, on the basis of the definitions in IAS 32, and (2) all non-equity contingent consideration, both financial and non-financial, is measured at fair value at each reporting date, with changes in fair value recognised in profit and loss. Amendments to IFRS 3 are effective for business combinations where the acquisition date is on or after 1 July 2014.

IFRS 8 was amended to require (1) disclosure of the judgements made by management in aggregating operating segments, including a description of the segments which have been aggregated and the economic indicators which have been assessed in determining that the aggregated segments share similar economic characteristics, and (2) a reconciliation of segment assets to the entity's assets when segment assets are reported.

The basis for conclusions on IFRS 13 was amended to clarify that deletion of certain paragraphs in IAS 39 upon publishing of IFRS 13 was not made with an intention to remove the ability to measure short-term receivables and payables at invoice amount where the impact of discounting is immaterial.

IAS 16 and IAS 38 were amended to clarify how the gross carrying amount and the accumulated depreciation are treated where an entity uses the revaluation model.

6 New Accounting Pronouncements (Continued)

IAS 24 was amended to include, as a related party, an entity that provides key management personnel services to the reporting entity or to the parent of the reporting entity ('the management entity'), and to require to disclose the amounts charged to the reporting entity by the management entity for services provided.

The Group is currently assessing the impact of the amendments on its financial statements.

Annual Improvements to IFRSs 2013 (issued in December 2013 and effective for annual periods beginning on or after 1 July 2014). The improvements consist of changes to four standards.

The basis for conclusions on IFRS 1 is amended to clarify that, where a new version of a standard is not yet mandatory but is available for early adoption; a first-time adopter can use either the old or the new version, provided the same standard is applied in all periods presented.

IFRS 3 was amended to clarify that it does not apply to the accounting for the formation of any joint arrangement under IFRS 11. The amendment also clarifies that the scope exemption only applies in the financial statements of the joint arrangement itself.

The amendment of IFRS 13 clarifies that the portfolio exception in IFRS 13, which allows an entity to measure the fair value of a group of financial assets and financial liabilities on a net basis, applies to all contracts (including contracts to buy or sell non-financial items) that are within the scope of IAS 39 or IFRS 9.

IAS 40 was amended to clarify that IAS 40 and IFRS 3 are not mutually exclusive. The guidance in IAS 40 assists preparers to distinguish between investment property and owner-occupied property. Preparers also need to refer to the guidance in IFRS 3 to determine whether the acquisition of an investment property is a business combination.

The Group is currently assessing the impact of the amendments on its financial statements.

IFRS 14, Regulatory deferral accounts (issued in January 2014 and effective for annual periods beginning on or after 1 January 2016). IFRS 14 permits first-time adopters to continue to recognise amounts related to rate regulation in accordance with their previous GAAP requirements when they adopt IFRS. However, to enhance comparability with entities that already apply IFRS and do not recognise such amounts, the standard requires that the effect of rate regulation must be presented separately from other items. An entity that already presents IFRS financial statements is not eligible to apply the standard.

Unless otherwise described above, the new standards and interpretations are not expected to affect significantly the Group's consolidated financial statements.

7 Cash and Cash Equivalents and Mandatory Reserves

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Cash on hand	155,697	157,375
Cash balances with the NBU (other than mandatory reserve deposits)	65,965	104,660
Mandatory cash balances with the NBU	36,826	-
Correspondent accounts with other banks	107,546	611,260
Total cash and cash equivalents and mandatory reserves	366,034	873,295

As at 31 December 2013 mandatory reserve balance with the NBU is calculated on the basis of a simple average over a monthly period (2012: simple average over a monthly period) and is required to be maintained at the level of 0 to 15 per cent (31 December 2012: 0 to 10 per cent) of certain obligations of the Bank in a hryvnia equivalent. As such, the balance can vary from day-to-day. The Group's mandatory reserve balance with the NBU as at 31 December 2013 was UAH 91,495 thousand (31 December 2012: UAH 68,926 thousand). The Group may satisfy its mandatory reserve requirement with Treasury bills nominated in US dollars in the amount of 10% of their nominal value and a balance on a separate account with the NBU (2012: Treasury bills (EURO 2012) in the amount of 50% of their nominal value and a deposit placed on a separate account with the NBU).

As at 31 December 2013 the Group had to deposit on separate account with the NBU the amount of 40% of mandatory reserve balance for the preceding month excluding amount covered by the Treasury bills nominated in US dollars (2012: 50% of mandatory reserve balance for the preceding month excluding amount covered by the Treasury bills (EURO 2012)). As at 31 December 2013 the amount on separate account was UAH 36,826 thousand (31 December 2012: nil, as the Treasury bills (EURO 2012) held by the Group amount to UAH 70,000 thousand) and the average mandatory reserve balance for November 2013 is UAH 92,065 thousand (2012: the mandatory reserve amounted to UAH 79,306 thousand). This deposit is subject to interest payments from the NBU at the rate of 30% of the discount rate set by the NBU (1.95% p.a. as at 31 December 2013 and 2.25% p.a. as at 31 December 2012), provided that the Group is in compliance with the mandatory reserve requirements. As the respective liquid assets are not available to finance the Group's day-to-day operations, for the purposes of the cash flow statement the mandatory reserve balance kept on a separate account with the NBU is excluded from cash and cash equivalents. As at 31 December 2012 cash and cash equivalents for the purposes of the statement of cash flows were UAH 329,208 thousand (31 December 2012: UAH 873,295 thousand).

During 2013 the Group was in compliance with the mandatory reserve requirements.

Interest rate analysis of cash and cash equivalents is disclosed in Note 29. Information on related party balances is disclosed in Note 34.

The credit quality of cash and cash equivalents and mandatory reserve balances may be summarised based on Moody's ratings as follows at 31 December 2013:

<i>In thousands of Ukrainian hryvnias</i>	Cash balances with the NBU, including mandatory reserves	Correspondent accounts with other banks	Total
<i>Neither past due nor impaired</i>			
- National Bank of Ukraine	102,791	-	102,791
- Aaa – Aa3 rated	-	59,972	59,972
- A1 - A3 rated	-	25,589	25,589
- Baa1 - Baa3 rated	-	9,397	9,397
- Ba1 - Ba3 rated	-	200	200
- B1 – B3 rated	-	4,110	4,110
- Lower than Caa1 rated	-	7,609	7,609
- Unrated	-	669	669
Total cash and cash equivalents and mandatory reserves, excluding cash on hand	102,791	107,546	210,337

7 Cash and Cash Equivalents and Mandatory Reserves (Continued)

The credit quality of cash and cash equivalents and mandatory reserve balances may be summarised based on Moody's ratings as follows at 31 December 2012:

<i>In thousands of Ukrainian hryvnias</i>	Cash balances with the NBU, including mandatory reserves	Correspondent accounts with other banks	Total
<i>Neither past due nor impaired</i>			
- National Bank of Ukraine	104,660	-	104,660
- Aaa – Aa3 rated	-	367,658	367,658
- A1 - A3 rated	-	222,560	222,560
- Baa1 - Baa3 rated	-	99	99
- Ba1 - Ba3 rated	-	204	204
- B1 – B3 rated	-	5,620	5,620
- Lower than Caa1 rated	-	1,093	1,093
- Unrated	-	14,026	14,026
Total cash and cash equivalents and mandatory reserves, excluding cash on hand	104,660	611,260	715,920

8 Securities at Fair Value Through Profit or Loss

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Ukrainian government bonds	68,992	38,678
Total debt securities	68,992	38,678
Total securities at fair value through profit or loss	68,992	38,678

Debt securities, designated into this category are represented by indexed Treasury bills. The redemption value of these bonds depends on changes in weighted average UAH/USD exchange rate on interbank foreign exchange market between the month preceding the issue date and the month preceding the redemption date. This feature represents an embedded derivative which was not separated from the host contract as the financial instrument as a whole is accounted for at fair value through profit or loss.

The Group irrevocably designated the above securities, which are not part of its trading book, as at fair value through profit or loss. The securities meet the criteria for classification at fair value through profit or loss because the Group's management assesses performance of the investments based on their fair values in accordance with a documented investment strategy.

Securities designated at fair value through profit or loss are carried at fair value, which also reflects any credit risk related write-downs. As the securities are carried at their fair values based on observable market data, the Group does not analyse or monitor impairment indicators. Analysis by credit quality of debt securities designated at fair value through profit or loss outstanding at 31 December 2013, is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Ukrainian government bonds	Total
<i>Neither past due nor impaired (at fair value)</i>		
- B- rated	68,992	68,992
Total debt securities at fair value through profit or loss	68,992	68,992

The credit ratings are based on Ukraine's sovereign rating assigned by Standart&Poor's.

Analysis by credit quality of debt securities designated at fair value through profit or loss outstanding at 31 December 2012, is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Ukrainian government bonds	Total
<i>Neither past due nor impaired (at fair value)</i>		
- B3 rated	38,678	38,678
Total debt securities at fair value through profit or loss	38,678	38,678

The credit ratings are based on Ukraine's sovereign rating assigned by Moody's.

The debt securities are not collateralised.

Interest rate analysis of securities at fair value through profit or loss are disclosed in Note 29.

9 Due from Other Banks

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Guarantee deposits	7,378	5,736
Total due from other banks	7,378	5,736

As at 31 December 2013 guarantee deposits include UAH 7,378 thousand (2012: UAH 5,736 thousand) due from two Ukrainian banks and one Russian bank placed as guarantee deposits for card settlements and transfers. Such placements are normally non-interest bearing.

Amounts due from other banks are not collateralised.

The credit quality of due from other banks outstanding at 31 December 2013 may be summarised based on Moody's ratings as follows:

<i>In thousands of Ukrainian hryvnias</i>	Guarantee deposits	Total
<i>Neither past due nor impaired</i>		
- Caa2 rated	7,325	7,325
- Unrated	53	53
Total due from other banks	7,378	7,378

The credit quality of due from other banks outstanding at 31 December 2012 may be summarised based on Moody's ratings as follows:

<i>In thousands of Ukrainian hryvnias</i>	Guarantee deposits	Total
<i>Neither past due nor impaired</i>		
- Caa1 rated	5,693	5,693
- Unrated	43	43
Total due from other banks	5,736	5,736

Refer to Note 32 for the estimated fair value of each class of amounts due from other banks. Interest rate analysis of due from other banks is disclosed in Note 29.

10 Loans and Advances to Customers

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Corporate loans	1,707,200	1,626,934
Loans to individuals - consumer loans	593,993	422,695
Loans to individuals - mortgage loans	396,832	400,449
Less: Provision for loan impairment	(331,813)	(216,581)
Total loans and advances to customers	2,366,212	2,233,497

As at 31 December 2013 loans and advances to customers in the amount of UAH 39,694 thousand (31 December 2012: UAH 20,380 thousand) were collateralised by customer deposits in the amount of UAH 71,371 thousand (31 December 2012: UAH 39,096 thousand). Refer to Note 18.

During 2013 the Group sold to unrelated parties the rights to 100% of the cash flows arising on a portfolio of fixed rate loans with gross book value of UAH 52,890 thousand (2012: UAH 39,579 thousand) and net book value of UAH 29,177 thousand (2012: UAH 9,474 thousand). As a result of this transaction the Group recognized net loss of UAH 2,607 thousand (2012: UAH 1,343 thousand).

As at 31 December 2013 amount of guarantee deposits received from PKO BP S.A. amounts to UAH 59,306 thousand (2012: UAH 10,819 thousand) and amount of loans and advances to customers which are collateralized by these deposits equal to UAH 76,675 thousand (2012: UAH 9,511 thousand).

10 Loans and Advances to Customers (Continued)

Movements in the provision for loan impairment during 2013 are as follows:

<i>In thousands of Ukrainian hryvnias</i>	Corporate loans	Consumer loans	Mortgage loans	Total
Provision for loan impairment at 1 January 2013	130,882	25,708	59,991	216,581
Provision for impairment during the year	138,848	7,919	11,687	158,454
Loans sold during the year	(24,456)	(440)	(1,424)	(26,320)
Amounts written off during the year as uncollectible	(18,146)	-	-	(18,146)
Translation differences	995	13	236	1,244
Provision for loan impairment at 31 December 2013	228,123	33,200	70,490	331,813

The amount of movement in provision shown in the table above in respect of loans, sold during the year, includes the amount of provision reversed and loss incurred as a result of the sale.

Movements in the provision for loan impairment during 2012 are as follows:

<i>In thousands of Ukrainian hryvnias</i>	Corporate loans	Consumer loans	Mortgage loans	Reverse sale and repurchase agreements	Total
Provision for loan impairment at 1 January 2012	140,346	19,626	65,063	34,525	259,560
Provision for impairment during the year	44,463	7,273	4,581	-	56,317
Loans sold during the year	(27,823)	(214)	(3,411)	-	(31,448)
Amounts written off during the year as uncollectible	(26,546)	(1,047)	(6,445)	(34,525)	(68,563)
Translation differences	442	70	203	-	715
Provision for loan impairment at 31 December 2012	130,882	25,708	59,991	-	216,581

Economic sector risk concentrations within the customer loan portfolio are as follows:

<i>In thousands of Ukrainian hryvnias</i>	2013		2012	
	Amount	%	Amount	%
Individuals	990,825	37	823,144	34
Manufacturing	477,713	18	413,648	17
Trade	465,888	17	487,749	20
Agriculture and food processing	295,877	11	258,256	11
Real estate and construction	106,138	4	85,379	3
Sports and recreation services	105,671	4	103,113	4
Health resorts	103,422	4	106,020	4

Financial services	3,474	-	809	-
Hotels	1,072	-	1,360	-
Other	3,589	-	4,529	-
Total loans and advances to customers (before impairment)	2,698,025	100	2,450,078	100

At 31 December 2013 total aggregate amount of loans of top 10 borrowers of the Group was UAH 497,752 thousand (2012: UAH 491,200 thousand), or 18% of the gross loan portfolio (2012: 20% of the gross loan portfolio).

10 Loans and Advances to Customers (Continued)

Information about collateral at 31 December 2013 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Corporate loans	Consumer loans	Mortgage loans	Total
Unsecured loans	165,044	84,876	50,680	300,600
Loans collateralised by:				
- cash deposits	95,058	3,409	533	99,000
- residential real estate	44,104	72	264,028	308,204
- other real estate	940,538	361	77,896	1,018,795
- other assets	462,456	505,275	3,695	971,426
Total loans and advances to customers (before impairment)	1,707,200	593,993	396,832	2,698,025

Information about collateral at 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Corporate loans	Consumer loans	Mortgage loans	Reverse sale and repurchase agreements	Total
Unsecured loans	93,355	63,573	34,856	-	191,784
Loans collateralised by:					
- cash deposits	28,786	592	514	-	29,892
- residential real estate	56,458	633	272,324	-	329,415
- other real estate	1,018,510	1,247	80,911	-	1,100,668
- other assets	429,825	356,650	11,844	-	798,319
Total loans and advances to customers (before impairment)	1,626,934	422,695	400,449	-	2,450,078

The amount of cash deposits in the table above includes UAH 59,306 thousand (2012: 10,819 thousand) pledged as collateral for a number of lending transactions by the Group's parent company, PKO BP S.A.

Other assets mainly include equipment, other movable property and property rights for future real estate. The disclosure above represents the lower of the carrying value of the loan or collateral taken; the remaining part is disclosed within the unsecured exposures. The carrying value of loans was allocated based on liquidity of the assets taken as collateral.

- 181 to 360 days overdue	240,772	8,354	12,748	261,874
- over 360 days overdue	146,787	28,495	95,147	270,429
Total individually and collectively impaired loans (gross)	644,714	44,426	144,683	833,823
Less impairment provisions	(228,123)	(33,200)	(70,490)	(331,813)
Total loans and advances to customers	1,479,077	560,793	326,342	2,366,212

The Group classifies loans and advances to customers by credit quality in accordance with classification prescribed by the NBU regulations. Current and not impaired loans are split by the Group into the following credit risk categories:

High grade. This category represents loans classified under NBU regulations as loans with low risk. This category includes exposures with insignificant credit risk which is characterised by strong financial position of the borrower and good loan servicing.

Standard grade. This category represents loans classified under NBU regulations as loans with moderate risk. This category includes exposures with insignificant credit risk which however may increase as a result of unfavourable conditions; these are exposures to borrowers with good financial standing and good repayment history or borrowers with strong financial position and payment history with delays not exceeding 90 days.

Sub-standard loans. This category includes exposures with significant credit risk which is characterised by weak or unsatisfactory financial position of the borrower and good loan servicing or good financial position of the borrower and poor loan servicing.

10 Loans and Advances to Customers (Continued)

Analysis by credit quality of loans outstanding at 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Corporate loans	Consumer loans	Mortgage loans	Total
<i>Neither past due nor impaired</i>				
- High grade	667,232	363,314	188,963	1,219,509

- less than 30 days overdue	15,199	440	-	15,639
- 30 to 90 days overdue	108,219	233	2,964	111,416
- 91 to 180 days overdue	33,752	3,746	15,931	53,429
- 181 to 360 days overdue	10,483	2,978	17,077	30,538
- over 360 days overdue	63,492	29,021	86,892	179,405
Total individually and collectively impaired loans (gross)	673,440	36,577	156,403	866,420
Less impairment provisions	(130,882)	(25,708)	(59,991)	(216,581)
Total loans and advances to customers	1,496,052	396,987	340,458	2,233,497

The Group applied the portfolio provisioning methodology prescribed by IAS 39, *Financial Instruments: Recognition and Measurement*, and created portfolio provisions for impairment losses that were incurred but have not been specifically identified with any individual loan by the end of the reporting period. The Group's policy is to classify each loan as 'neither past due nor impaired' until specific objective evidence of impairment of the loan is identified. The impairment provisions may exceed the total gross amount of individually impaired loans as a result of this policy and the portfolio impairment methodology.

Past due but not impaired loans primarily include collateralised loans where the fair value of collateral covers the overdue interest and principal repayments. The amount reported as past due but not impaired is the whole balance of such loans, not only the individual instalments that are past due.

The financial effect of collateral is presented by disclosing collateral values separately for (i) those assets where collateral and other credit enhancements are equal to or exceed carrying value of the asset ("over-collateralised assets") and (ii) those assets where collateral and other credit enhancements are less than the carrying value of the asset ("under-collateralised assets").

The effect of collateral at 31 December 2013:

<i>In thousands of Ukrainian hryvnias</i>	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Fair value of collateral	Carrying value of the assets	Fair value of collateral
Corporate loans	1,278,508	3,095,365	200,569	106,946
Mortgage loans	291,080	873,303	35,262	22,877
Consumer loans	436,009	703,364	124,784	59,076
Total	2,005,597	4,672,032	360,615	188,899

10 Loans and Advances to Customers (Continued)

The effect of collateral at 31 December 2012:

<i>In thousands of Ukrainian hryvnias</i>	Over-collateralised assets		Under-collateralised assets	
	Carrying value of the assets	Fair value of collateral	Carrying value of the assets	Fair value of collateral
Corporate loans	1,277,665	2,696,026	218,387	152,495
Mortgage loans	294,000	741,845	46,458	34,432
Consumer loans	227,384	352,300	169,603	120,575
Total	1,799,049	3,790,171	434,448	307,502

The fair value of collateral is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction. This amount does not include possible costs of debt recovery through the foreclosure. Net collateral value after court expenses, disposal costs and other costs related to debt recovery through the foreclosure may differ from its fair value.

The fair value of residential real estate collateral at the end of the reporting period was estimated by indexing the values determined by the Bank's internal credit department staff at the time of loan inception for the average changes in residential real estate prices by city and region. The fair value of other real estate and other assets was determined by the Bank's credit department by considering the condition and location of the assets accepted as collateral.

Refer to Note 32 for the estimated fair value of each class of loans and advances to customers. Interest rate analysis of loans and advances to customers is disclosed in Note 29. Information on related party balances is disclosed in Note 34.

11 Investment Securities Available for Sale

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Ukrainian government bonds	545,017	536,091
Corporate bonds	140,563	-
Total debt securities	685,580	536,091
Corporate shares	30	30
Total investment securities available for sale	685,610	536,121

Analysis by credit quality of debt securities outstanding at 31 December 2013 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Ukrainian government bonds	Corporate bonds	Total
<i>Neither past due nor impaired</i>			
- Ukrainian government	545,017	-	545,017
- B1 – B3 rated	-	39,303	39,303
- Caa2 rated	-	30,036	30,036
- Unrated	-	71,224	71,224
Total neither past due nor impaired	545,017	140,563	685,580
Total debt securities available for sale	545,017	140,563	685,580

As at 31 December 2013, refinancing loan received from NBU in the amount of UAH 24,226 thousand (2012: UAH 3,509 thousand), is collateralized by investment securities available for sale in the amount of UAH 24,291 thousand (2012: UAH 3,549 thousand).

11 Investment Securities Available for Sale (Continued)

Analysis by credit quality of debt securities outstanding at 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Ukrainian government bonds	Total
<i>Neither past due nor impaired</i>		
- Ukrainian government	536,091	536,091
Total neither past due nor impaired	536,091	536,091
Total debt securities available for sale	536,091	536,091

The primary factor that the Group considers in determining whether a debt security is impaired is its overdue status. As a result, the Group presents above an ageing analysis of debt securities that are individually determined to be impaired. The debt securities are not collateralised.

Interest rate analysis of investment securities available for sale is disclosed in Note 29.

12 Investment Securities Held to Maturity

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Ukrainian government bonds	72,548	72,792
Securities issued by the National Bank of Ukraine	30,001	50,007
Total investment securities held to maturity	102,549	122,799

Analysis by credit quality of investment securities classified as held to maturity at 31 December 2013 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Government securities	Total
<i>Neither past due nor impaired</i>		
- Ukrainian government	72,548	72,548
- National Bank of Ukraine	30,001	30,001
Total neither past due nor impaired	102,549	102,549
Total investment securities held to maturity	102,549	102,549

Analysis by credit quality of investment securities classified as held to maturity at 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Government securities	Total
<i>Neither past due nor impaired</i>		
- Ukrainian government	72,792	72,792
- National Bank of Ukraine	50,007	50,007
Total neither past due nor impaired	122,799	122,799
Total investment securities held to maturity	122,799	122,799

The primary factor that the Group considers in determining whether a debt security is impaired is its overdue status.

The debt securities are not collateralised.

Refer to Note 32 for the disclosure of the fair value of each class of investment securities held to maturity. Interest rate analysis of investment securities held to maturity is disclosed in Note 29.

Kredobank Group
Notes to the Consolidated Financial Statements – 31 December 2013

13 Investment property

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Investment properties at fair value at 1 January	-	-
Transfer from owner-occupied premises	14	15,536
Investment properties at fair value at 31 December	15,536	-

In 2013 the Group transferred premises held by the Group to earn rental income with carrying amount of UAH 15,536 thousand from owned-occupied premises to investment property. As at 31 December 2013 fair value of the Group's investment property is determined based on internal management's assessments. The basis used for the appraisal was market value.

14 Premises, Leasehold Improvements, Equipment and Intangible Assets (Continued)

Construction in progress consists mainly of construction and refurbishment of branch premises. Upon completion, assets are transferred to premises.

As at 31 December 2013 the gross carrying amount of fully depreciated equipment that are still in use was UAH 67,345 thousand (2012: UAH 54,308 thousand) and the gross carrying value of fully amortised intangible assets that are still in use was UAH 6,703 thousand (2012: UAH 6,793 thousand).

During 2012 management reviewed useful lives of premises, leasehold improvements, equipment and intangible assets and adjusted them where appropriate.

In 2012 the Group changed its accounting policy in respect of measurement of the value of land and buildings, included in group “premises and leasehold improvements”, after recognition. Starting from 2012 land and buildings are recorded under the revaluation model.

Land and buildings have been revalued at fair value at 31 December 2013. The valuation was carried out by internal valuer who hold relevant professional qualification and who has recent experience in valuation of property of similar location and category. The basis used for the appraisal was market value.

At 31 December 2013, the carrying amount of premises and leasehold improvements would have been UAH 161,170 thousand (2012: UAH 187,556 thousand) had the assets been carried at cost less depreciation.

15 Other Financial Assets

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Receivables from operations with customers and banks	14,577	15,282

Total individually impaired (gross)	2,630	8,000	-	10,630
Less impairment provision	(2,762)	(6,524)	-	(9,286)
Total other financial assets	5,615	8,053	120	13,788

Analysis by credit quality of other financial assets at 31 December 2012 is as follows:

	Accrued income receivable	Receivables from operations with customers and banks	Receivables from operations with plastic cards	Total
<i>In thousands of Ukrainian hryvnias</i>				
<i>Neither past due nor impaired</i>				
- Collected or settled after the end of the reporting period	4,727	7,275	472	12,474
- Not due at the date of authorisation of the financial statements for issue	-	8,000	-	8,000
Total neither past due nor impaired	4,727	15,275	472	20,474
<i>Receivables individually determined to be impaired (gross)</i>				
- less than 30 days overdue	129	-	-	129
- 31 to 90 days overdue	57	-	-	57
- over 360 days overdue	1,590	7	-	1,597
Total individually impaired (gross)	1,776	7	-	1,783
Less impairment provision	(1,710)	(3,532)	-	(5,242)
Total other financial assets	4,793	11,750	472	17,015

The primary factors that the Group considers in determining whether a receivable is impaired are its overdue status and realisability of related collateral, if any. As a result, the Group presents above an ageing analysis of receivables that are individually determined to be impaired. Other receivables generally are not collateralised.

Information on related party balances is disclosed in Note 34.

16 Other Non-financial Assets

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Reposessed collateral	12,821	12,821
Prepayments for goods and construction in progress	9,708	12,222
Prepaid expenses	7,035	4,682
Prepayment for services	4,411	4,326
Prepaid taxes other than income tax	4,139	7,777
Inventory	2,539	1,398
Receivables from settlements with employees and other	478	1,316
Provision for impairment of other non-financial assets	(1,542)	(4,814)
Total other non-financial assets	39,589	39,728

Reposessed collateral represents real estate assets acquired by the Group in settlement of overdue loans. The Group expects to dispose of the assets in the foreseeable future. The assets were initially recognised at fair value when acquired.

17 Due to Other Banks

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Correspondent accounts and overnight placements of other banks	134,496	36,763
Term placements and loans from other banks	443,291	657,132
Total due to other banks	577,787	693,895

As at 31 December 2013, term placements and loans include UAH 399,650 thousand (2012: UAH 621,218 thousand) received from PKO BP S.A. (Poland) and correspondent accounts and overnight placements of other banks include UAH 125,954 thousand (2012: UAH 18,508 thousand) of balances on accounts of PKO BP S.A. (Poland).

As at 31 December 2013, term placements and loans include loans of UAH 19,412 thousand (2012: UAH 28,803 thousand) received from the EBRD for financing loan facilities to customers.

As at 31 December 2013, term placements and loans include UAH 24,226 thousand (2012: UAH 3,509 thousand), received from NBU that is collateralized by investment securities available for sale in the amount of UAH 24,291 thousand (2012: UAH 3,549 thousand).

Refer to Note 32 for the disclosure of the fair value of each class of amounts due to other banks. Interest rate analysis of due to other banks is disclosed in Note 29. Information on related party balances is disclosed in Note 34.

18 Customer Accounts

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Legal entities		
- Current/settlement accounts	595,298	486,767
- Term deposits	350,787	435,329
Individuals		
- Current/demand accounts	330,784	297,903
- Term deposits	1,511,153	1,625,030
Total customer accounts	2,788,022	2,845,029

18 Customer Accounts (Continued)

Economic sector concentrations within customer accounts are as follows:

<i>In thousands of Ukrainian hryvnias</i>	2013		2012	
	Amount	%	Amount	Amount
Individuals	1,841,937	66	1,922,933	68
Trade	228,470	8	172,085	6
Manufacturing	184,435	7	218,060	8
Financial services	171,411	6	154,407	5
Other services	151,982	5	124,219	4
Real estate	49,277	2	36,676	1
Agriculture	26,852	1	42,174	2
Transport and communication	23,124	1	68,117	2
Other	110,534	4	106,358	4
Total customer accounts	2,788,022	100	2,845,029	100

At 31 December 2013 the Group had 22 customers (2012: 19 customers) with balances above UAH 10,000 thousand. The aggregate balance on accounts of these customers was UAH 379,179 thousand (2012: UAH 334,698 thousand) or 14% (2012: 12%) of total customer accounts.

At 31 December 2013 included in customer accounts are deposits of UAH 9,913 thousand (2012: UAH 3,216 thousand) held as collateral for guarantee issued. Refer to Note 31.

As at 31 December 2013 included in customer accounts are deposits totalling UAH 71,371 thousand (2012: UAH 39,096 thousand) held as collateral for loans granted to customers totalling UAH 39,694 thousand (2012: UAH 20,380 thousand). Refer to Note 10. Refer to Note 32 for the disclosure of the fair value of each class of customer accounts. Interest rate analysis of customer accounts is disclosed in Note 29. Information on related party balances is disclosed in Note 34.

19 Other Financial Liabilities

Other financial liabilities comprise of the following:

<i>In thousands of Ukrainian hryvnias</i>	Note	2013	2012
Other accrued liabilities		8,281	10,050
Funds in settlements		5,501	25,968
Provision for credit related commitments	31	499	81
Other		782	682
Total other financial liabilities		15,063	36,781

Provision for credit related commitments represents specific provisions created for losses incurred on financial guarantees and letters of credit provided to borrowers whose financial conditions deteriorated.

Refer to Note 32 for disclosure of the fair value of each class of other financial liabilities.

20 Other Non-financial Liabilities

Other non-financial liabilities comprise of the following:

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Accrued employee benefit costs	10,552	13,714
Amounts payable to Individuals' Deposits Guarantee Fund	3,327	2,754
Taxes payable other than on income	539	22
Other	4,786	2,349
Total other non-financial liabilities	19,204	18,839

21 Subordinated Debt

<i>In thousands of Ukrainian hryvnias</i>	Effective interest rate 2013	Carrying value	
		2013	2012
USD 20,000 floating rate due 2017	2,54%	165,753	162,049
USD 15,000 floating rate due 2018	2.59%	124,399	121,697
Total subordinated debt		290,152	283,746

During 2009 the Bank received from PKO BP S.A. (Poland) subordinated debt in the amount of USD 20,000 thousand (UAH 159,806 thousand at the exchange rate at the date of receipt) at 1-month LIBOR+6.5% per annum. The agreement was registered by the National Bank of Ukraine on 9 November 2009. The debt matures on 6 November 2017.

During 2010 the Bank received from PKO BP S.A. (Poland) subordinated debt in the amount of USD 15,000 thousand (UAH 120,140 thousand at the exchange rate at the date of receipt) at 1-month LIBOR+6.5% per annum. The agreement was registered by the National Bank of Ukraine on 9 February 2010. The debt matures on 5 February 2018.

On 18 May 2010 interest rate on both loans was changed to 1-month LIBOR + 3.75%. This represented substantial change in terms of the original financial liability and was accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability at fair value. The Bank considered that revised terms of subordinated debt are consistent with the market rates and therefore no gain or loss was recorded on initial recognition of the liability.

On 8 August 2012 interest rate on both loans was changed to 1.07% per annum (that equal to USD 12-month LIBOR on July 1, 2012), this rate will be in force until the Bank becomes profitable and other conditions stated in agreement will be met by the Bank. During this period, interest payment is suspended. The Group estimated future cash flows arising on this instrument, taking into account business plan assumptions and expectations of renewed profitability starting from 2015. The change in the agreement's terms did not result in derecognition of liabilities as the difference between the present value of future cash flows, discounted by using the original effective interest rate, and the book value of borrowings as at the date of amendments represented 4.93%. The result from restructuring is recognised by the Group over the remaining term of the financial liability through application of revised effective interest rate.

The debt ranks after all other creditors in case of liquidation.

Refer to Note 32 for the disclosure of the fair value of subordinated debt. Interest rate analysis of subordinated debt is disclosed in Note 29. Information on related party balances is disclosed in Note 34.

22 Share Capital

<i>In thousands of Ukrainian hryvnias except for number of shares</i>	Number of outstanding shares	Nominal amount	Total
At 1 January 2012	191,896,946,916	1,918,969	1,918,969
At 31 December 2012	191,896,946,916	1,918,969	1,918,969
At 31 December 2013	191,896,946,916	1,918,969	1,918,969

The nominal registered amount of the Bank's issued share capital is UAH 1,918,969 thousand (2010: UAH 1,918,969 thousand).

At 31 December 2013, the Bank's authorised share capital comprised 191,896,946,916 (2012: 191,896,946,916) ordinary shares, with a nominal value UAH 0.01 per share. All ordinary shares have equal voting rights. As at 31 December 2013 all ordinary shares issued were fully paid and registered.

The Bank's shareholders structure is presented as follows:

Shareholder	2013	2012
PKO BP S.A.	99.57%	99.57%
Other (resident and non-resident shareholders)	0.43%	0.43%
Total	100.00%	100.00%

23 Other Comprehensive Income Recognised in Each Component of Equity

An analysis of other comprehensive income by item for each component of equity is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Note	Revaluation reserve for available for sale securities	Revaluation reserve for premises	Total
Year ended 31 December 2012				
Available for sale investments:				
- Losses less gains arising during the year		(11,338)	-	(11,338)
Revaluation of premises and equipment		-	169,798	169,798
Income tax recorded directly in other comprehensive income	27	1,814	1,865	3,679
Total other comprehensive income		(9,524)	171,663	162,139
Year ended 31 December 2013				
Available for sale investments:				
- Losses less gains arising during the year		(6,082)	-	(6,082)
Income tax recorded directly in other comprehensive income	27	(47)	-	(47)
Total other comprehensive income		(6,129)	-	(6,129)

As stated in Notes 3 and 14, during 2012 the Group changed its accounting policy and starting from 2012 land and buildings are recorded under the revaluation model. As a result of this change difference between carrying amount of land and buildings for tax purposes and carrying amount in accordance with IFRS recognized in 2010 as a result of changes in Ukrainian tax regulations, reduced significantly. Reversal of deferred tax asset arising previously on this difference, was charged to profit or loss for the year as it reversed deferred tax credit recognized in profit or loss in respect of this difference in 2010. Deferred tax asset of UAH 1,865 thousand relating to decreases in the fair value offsetting previous increases of the fair value of the same asset, has been recognized in other comprehensive income. Deferred tax assets relating to all other decreases, were credited to profit or loss for the year.

24 Interest Income and Expense

<i>In thousands of Ukrainian hryvnias</i>	Note	2013	2012
Interest income			
Loans and advances to legal entities		156,667	130,440
Loans and advances to individuals		98,833	81,362

Subordinated debt		6,406	12,394
Amounts due to the National Bank of Ukraine		312	610
Other		53	-
Total interest expense		272,494	230,783
Net interest income		146,563	156,060

Information on interest income and expense from transactions with related parties is disclosed in Note 34.

25 Fee and Commission Income and Expense

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Fee and commission income		
Cash and settlement transactions	123,971	103,520
Agency fee from insurance companies	24,600	13,956
Purchase and sale of foreign currency	16,425	15,690
Agency fee from other financial institutions for credit products sold	9,485	11,824
Guarantees issued	1,406	1,204
Other	1,014	1,073
Total fee and commission income	176,901	147,267
Fee and commission expense		
Cash and settlement transactions	11,504	1,690
Guarantees received	278	248
Transactions with securities	213	179
Other	544	14
Total fee and commission expense	12,539	2,131
Net fee and commission income	164,362	145,136

Information on fee and commission income and expense from transactions with related parties is disclosed in Note 34.

26 Administrative and Other Operating Expenses

<i>In thousands of Ukrainian hryvnias</i>	Note	2013	2012
Staff costs		149,316	151,979
Depreciation and amortisation of premises, leasehold improvements, equipment and intangible assets	14	32,420	35,687
Operating lease expense for premises		27,856	26,814
Utilities		19,715	19,143
Repairs and maintenance		14,761	15,083
Contributions to Individuals Deposit Guarantee Fund		13,583	9,387
Communication		12,997	11,898
Professional services		10,458	10,095
Security services		9,440	9,342
Taxes other than on income		6,019	2,174
Advertising and marketing services		3,854	5,343
Business trips		2,474	2,249
Charity		348	333
Other		28,714	30,139
Total administrative and other operating expenses		331,955	329,666

Included in staff costs is the unified social tax in the amount of UAH 34,936 thousand (2012: UAH 37,529 thousand). Contribution to the state pension fund comprises 90% of the unified social tax, amounting to UAH 31,442 thousand (2012: UAH 33,776 thousand). No discretionary pensions and other post-employment benefits are provided by the Group.

27 Income Taxes

(a) Components of income tax expense

Income tax expense recorded in profit or loss for the year comprises the following:

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Current tax	13,075	-
Deferred tax	131,431	12,034
Income tax expense	144,506	12,034

(b) Reconciliation between the tax expense and profit or loss multiplied by applicable tax rate

The income tax rate applicable to the majority of the Group's income is 19% (2012: 21%). A reconciliation between the expected and the actual taxation charge is provided below.

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Loss before tax	(180,147)	(124,515)
Theoretical tax credit at statutory rate (2013: 19%; 2012: 21%)	(34,228)	(26,148)
Tax effect of items which are not deductible or assessable for taxation purposes:		
- Income recognised for tax purposes only	28,547	25
- Debt forgiveness expenses not deductible for taxation purposes	5,532	8,380
- Other non-deductible expenses	12,122	7,620
Effect of change in expected term of utilization of tax losses carried forward	-	(3,761)
Tax losses written off upon court decision	135,101	-
Fixed assets revaluation	-	38,668
Effect of other changes in tax legislation	(2,568)	(12,750)
Income tax expense for the year	144,506	12,034

(c) Deferred taxes analysed by type of temporary difference

Differences between IFRS and statutory taxation regulations in Ukraine give rise to temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and their tax bases. The tax effect of the movements in these temporary differences is detailed below.

<i>In thousands of Ukrainian hryvnias</i>	31 December 2012	Credited/ (charged) to profit or loss	Charged to other comprehen- sive income	Credited directly to equity	31 December 2013
Tax effect of deductible/(taxable) temporary differences					
Premises and equipment	12,538	(444)	-	212	12,306
Loan impairment provision	(4,242)	1,264	-	-	(2,978)
Unamortised origination fees	-	1,145	-	-	1,145
Fair valuation of securities	1,619	258	(48)	-	1,829
Accrued expenses and other liabilities	3,397	489	-	-	3,886
Tax losses carried forward	135,101	(135,101)	-	-	-
Other	-	958	-	-	958
Net deferred tax asset	148,413	(131,431)	(48)	212	17,146
Recognised deferred tax asset	152,655	-	-	-	20,124
Recognised deferred tax liability	(4,242)	-	-	-	(2,978)
Net deferred tax asset	148,413	(131,431)	(48)	212	17,146

In 2013 the Group written off deferred tax asset relating to tax losses carried forward as a result of High Administrative Court of Ukraine decision issued in November 2013 (refer to Note 31).

27 Income Taxes (Continued)

	31 December 2011	Credited/ (charged) to profit or loss	Credited to other comprehen- sive income	31 December 2012
<i>In thousands of Ukrainian hryvnias</i>				
Tax effect of deductible/(taxable) temporary differences				
Premises and equipment	36,470	(25,797)	1,865	12,538
Loan impairment provision	(9,443)	5,201	-	(4,242)
Unamortised origination fees	911	(911)	-	-
Fair valuation of securities	(13,601)	13,406	1,814	1,619
Accrued expenses and other liabilities	3,595	(198)	-	3,397
Tax losses carried forward	136,648	(1,547)	-	135,101
Other	2,188	(2,188)	-	-
Net deferred tax asset	156,768	(12,034)	3,679	148,413
Recognised deferred tax asset	179,812	-	-	152,655
Recognised deferred tax liability	(23,044)	-	-	(4,242)
Net deferred tax asset	156,768	-	-	148,413

As disclosed in Note 14 and 23, the Group changed its accounting policy and starting from 2012 land and buildings are recorded under the revaluation model. As a result of this change difference between carrying amount of land and buildings for tax purposes and carrying amount in accordance with IFRS recognized in 2010 as a result of changes in Ukrainian tax regulations, reduced significantly. Reversal of deferred tax asset arising previously on this difference, was charged to profit or loss for the year as it reversed deferred tax credit recognized in respect of this difference in 2010. Additional deferred tax asset of UAH 1,865 thousand arising in subsequent periods, has been recorded directly in equity.

28 Segment Analysis

Operating segments are components that engage in business activities that may earn revenues or incur expenses, whose operating results are regularly reviewed by the chief operating decision maker (CODM) and for which discrete financial information is available. The CODM is the person or group of persons who allocates resources and assesses the performance for the entity. The functions of CODM are performed by the Management Board of the Bank.

(a) Description of products and services from which each reportable segment derives its revenue

The Group is organised on the basis of three main business segments:

- Retail banking – representing private banking services, private customer current accounts, savings, deposits, investment savings products, credit and debit cards, consumer loans and mortgages.
- Corporate banking – representing direct debit facilities, current accounts, deposits, overdrafts, loan and other credit facilities and foreign currency operations.
- Treasury and investment banking – representing financial instruments trading, structured financing, operations with foreign currency and banknotes.

(b) Factors that management used to identify the reportable segments

The Group's segments are strategic business units that focus on different customers. They are managed separately because each business unit requires different marketing strategies and service level.

(c) Measurement of operating segment profit or loss, assets and liabilities

The Management Board reviews financial information prepared based on Ukrainian accounting standards before year-end closing adjustments with corrections to meet the requirements of internal reporting. Such financial information differs in certain aspects from International Financial Reporting Standards:

- (i) funds are generally reallocated between segments at internal interest rates set by the treasury department, which are determined by reference to market interest rate benchmarks, contractual maturities for loans and observed actual maturities of customer accounts balances;
- (ii) income taxes are not allocated to segments;

28 Segment Analysis (Continued)

- (iii) loan provisions are recognized based on the NBU requirements rather than based on the incurred loss model prescribed in IAS 39; and
- (iv) commission income related to lending is partially recognized immediately rather than deferred using the effective interest method.

The CODM evaluates performance of each segment based on profit before tax.

Reports include information on transfer (internal) results of reportable segments. Transfer result is calculated as difference between transfer income and transfer expense of each segment calculated at transfer prices set by major currencies and maturities. For corporate and retail segment transfer income is formed as estimated income from sale of attracted resources to Treasury and investment segment at transfer prices for such resources; transfer expenses are formed as estimated expenditure for purchase of resources from Treasury and investment segment at transfer prices for resources placed.

Calculation of transfer prices and transfer income/expense is performed in accordance with "Methodology for defining and applying transfer prices of resources in KREDOBANK system" approved by the decision of the Management Board (№ 41/2008 dated 18 December 2008).

(d) Information about reportable segment profit or loss, assets and liabilities

Segment information for the reportable segments for the year ended 31 December 2013 is set out below:

	Retail banking	Corporate banking	Treasury and Investment banking	Unallocated	Total
<i>In thousands of Ukrainian hryvnias</i>					
Reportable segment assets	895,530	1,501,466	1,252,876	729,062	4,378,934

28 Segment Analysis (Continued)

Reconciliation of material items of income or expenses for the year ended 31 December 2013 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Total amount for all reportable segments	Adjustment of provision for loan impairment	Recognition of financial assistance received from parent company as equity transaction	Reclassification of income/expenses in accordance with their substance	Reclassification of income/expenses related to loans and advances to customers	Other	As reported under IFRS
Material income or expenses for year ended 31 December 2013							
<i>External revenues:</i>							
- Interest income	432,970	(13,066)	-	-	-	(847)	419,057
- Fee and commission income	152,301	-	-	24,600	-	-	176,901
- Other operating income	245,060	-	(168,640)	(24,600)	(44,496)	(2,916)	4,408
Interest expense	(269,120)	-	-	-	-	(3,374)	(272,494)
Provision for loan impairment	(155,619)	3,110	-	-	(7,279)	1,334	(158,454)
Impairment of investment securities available for sale	(1,395)	-	-	-	-	1,395	-
Provision for credit related commitments	(14)	-	-	-	-	(380)	(394)
Depreciation and amortisation	(32,529)	-	-	-	-	109	(32,420)
Fee and commission expense	(12,019)	-	-	-	-	(520)	(12,539)
Losses less gains from securities at fair value through profit or loss	(766)	-	-	-	-	(1,139)	(1,905)
Gains less losses from trading in foreign currencies	12,007	-	-	-	-	(384)	11,623
Foreign exchange translation losses less gains	(2,008)	-	-	-	-	-	(2,008)
Gains less losses from disposals of investment securities available for sale	3,473	-	-	-	-	(2,031)	1,442
Administrative and other operating expenses	(371,442)	-	-	-	51,775	6,303	(313,364)

The reconciling items are attributable to the following:

- (i) the Group analyses in Segment reporting provision for impairment created in accordance with the NBU requirements;
- (ii) non-refundable financial assistance received from parent company was recorded in equity for IFRS reporting purpose;
- (iii) agency fee from insurance companies was recorded as fee and commission income for IFRS reporting purposes;
- (iv) movement in provision for loan and advances to customers was presented on a net basis for IFRS reporting purposes.

28 Segment Analysis (Continued)

Reconciliation of material items of income or expenses for the year ended 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Total amount for all reportable segments	Adjustment of provision for loan impairment	Impairment of fixed assets	Reclassification of income/expenses in accordance with their substance	Netting operations with similar substance	Other	As reported under IFRS
Material income or expenses for year ended 31 December 2012							
<i>External revenues:</i>							
- Interest income	383,383	-	-	-	-	3,460	386,843
- Fee and commission income	142,275	-	-	13,956	(8,964)	-	147,267
- Other operating income	76,977	-	-	(13,956)	(57,789)	(1,591)	3,641
Interest expense	(228,602)	-	-	-	-	(2,181)	(230,783)
Provision for loan impairment	(18,330)	(31,122)	-	(7,396)	-	531	(56,317)
Reversal of impairment of investment securities available for sale	24,052	-	-	(24,052)	-	-	-
(Provision)/reversal of provision for credit related commitments	(90)	-	-	-	-	483	393
Depreciation and amortisation	(35,601)	-	-	-	-	(86)	(35,687)
Fee and commission expense	(11,095)	-	-	-	8,964	-	(2,131)
Losses less gains from securities at fair value through profit or loss	-	-	-	-	-	(479)	(479)
Gains less losses from trading in foreign currencies	7,299	-	-	-	-	(3,963)	3,336
Foreign exchange translation losses less gains	(1,209)	13	-	-	-	-	(1,196)
Losses less gains from disposals of investment securities available for sale	(4,533)	-	-	-	-	(623)	(5,156)
Administrative and other operating expenses	(396,231)	-	(19,273)	31,448	57,789	(7,979)	(334,246)

The reconciling items are attributable to the following:

- (i) the Group analyses in Segment reporting provision for impairment created in accordance with the NBU requirements;
- (ii) impairment of fixed assets was recognized for IFRS reporting purposes;
- (iii) agency fee from insurance companies was recorded as fee and commission income for IFRS reporting purposes; reversal of provision for impairment of reverse sale and repurchase agreements was transferred from reversal of provision for investment securities available for sale to provision for loan impairment for IFRS reporting purposes; results from sale of loans and securities were recorded on a net basis for IFRS reporting purposes;
- (iv) movement in provision for other assets was presented on a net basis for IFRS reporting purposes; offsetting of fee and commission income from transactions with customers' credit cards against the similar expense.

28 Segment Analysis (Continued)

Reconciliation of material assets and liabilities at 31 December 2013 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Total amount for all reportable segments	Adjustment of provision for loan impairment	Adjustment for deferred taxes and current income tax liability	Accounting for operations on a net basis and reclassification	Cut-off adjustment for cash	Other	As reported under IFRS
Assets at 31 December 2013	4,378,934	13,993	(135,841)	(29,870)	(16,568)	6,047	4,216,695
Cash and cash equivalents and mandatory reserves	383,846	-	-	-	(15,837)	(1,975)	366,034
Loans and advances to customers	2,374,468	13,993	-	(22,249)	-	-	2,366,212
Premises, leasehold improvements, equipment, intangible assets and investment property	544,436	-	-	-	-	2,937	547,373
Other reportable segment assets	1,076,184	-	(135,841)	(7,621)	(731)	5,085	937,076
Liabilities at 31 December 2013	3,736,668	-	41,784	(29,870)	(16,569)	3,331	3,735,344
Due to other banks	577,787	-	-	-	-	-	577,787
Customer accounts	2,800,757	-	-	-	(13,740)	1,005	2,788,022
Subordinated debt	283,792	-	-	-	-	6,360	290,152
Other reportable segment liabilities	74,332	-	41,784	(29,870)	(2,829)	(4,034)	79,383
Capital expenditure for 2013	17,952	-	-	-	-	5,367	23,319

The reconciling items are attributable to the following:

- (i) the Group analyses in Segment reporting provision for impairment created in accordance with the NBU requirements;
- (ii) deferred tax asset in respect of tax losses carried forward was not written off for the purposes of Segment reporting;
- (iii) netting of other assets and other liabilities with the same substance for IFRS reporting purposes;
- (iv) actual cash and cash equivalents balance as at balance sheet date is recognised for IFRS reporting purposes.

28 Segment Analysis (Continued)

Reconciliation of material assets and liabilities at 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Total amount for all reportable segments	Adjustment of provision for loan impairment	Adjustment for deferred taxes	Adjustment for revaluation and impairment of premises	Accounting for operations on a net basis and reclassification	Cut-off adjustment for cash	Other	As reported under IFRS
Assets at 31 December 2012	4,503,993	24,376	88,684	(35,084)	(14,050)	(10,170)	(3,925)	4,553,824
Cash and cash equivalents and mandatory reserves	887,276	154	-	-	-	(10,170)	(3,965)	873,295
Loans and advances to customers	2,204,680	23,948	-	-	-	-	4,869	2,233,497
Premises, leasehold improvements, equipment and intangible assets	560,913	-	-	(35,084)	-	-	9,505	535,334
Other reportable segment assets	851,124	274	88,684	-	(14,050)	-	(14,334)	911,698
Liabilities at 31 December 2012	3,908,129	-	(2,600)	-	(14,050)	(10,170)	(3,019)	3,878,290
Due to other banks	683,550	-	-	-	-	-	10,345	693,895
Customer accounts	2,864,681	-	-	-	-	(10,170)	(9,482)	2,845,029
Subordinated debt	278,959	-	-	-	-	-	4,787	283,746
Other reportable segment liabilities	80,939	-	(2,600)	-	(14,050)	-	(8,669)	55,620
Capital expenditure for 2012	24,254	-	-	(12,026)	-	-	-	12,228

The reconciling items are attributable to the following:

- (i) the Group analyses in Segment reporting provision for impairment created in accordance with the NBU requirements;
- (ii) certain deferred tax assets were not recognized for the purposes of Segment reporting;
- (iii) impairment of fixed assets was recognized for IFRS reporting purposes;
- (iv) netting of other assets and other liabilities with the same substance for IFRS reporting purposes;
- (v) actual cash and cash equivalents balance as at balance sheet date is recognised for IFRS reporting purposes.

(f) Analysis of revenues by products and services

The Group's revenues are analysed by products and services in Note 24 (interest income) and Note 25 (fee and commission income).

(g) Geographical information

Ukraine represents the only geographical segment, as majority of revenues and assets are attributable to Ukraine. The Bank has no material revenues from outside Ukraine and all its non-current assets other than financial instruments are attributable to Ukraine. Please refer also to Note 29 for geographical analysis of the Group's assets and liabilities.

(h) Major customers

The Group does not have customers with the revenues exceeding 10 % of the total revenue of the Group.

29 Financial Risk Management

The risk management function within the Group is carried out by the Group in respect of financial risks, operational risks and legal risks. Financial risk comprises market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk. The primary objectives of the financial risk management function are to establish risk limits, and then ensure that exposure to risks stays within these limits. The operational and legal risk management functions are intended to ensure proper functioning of internal policies and procedures to minimise operational and legal risks.

Credit risk. The Group takes on exposure to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Exposure to credit risk arises as a result of the Group's lending and other transactions with counterparties giving rise to financial assets.

The Group's maximum exposure to credit risk is reflected in the carrying amounts of financial assets on the statement of financial position. For guarantees and commitments to extend credit, the maximum exposure to credit risk is the amount of the commitment. Refer to Note 31. The credit risk is mitigated by collateral and other credit enhancements as disclosed in Note 10.

The Group structures the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers. Limits on the level of credit risk by product and industry sector are approved regularly by management. Such risks are monitored on a revolving basis and subject to an annual or more frequent review.

The Group established authorized corporate bodies which are responsible for approving credit limits for individual borrowers:

- Supervisory Board reviews and approves credit applications above USD 2.5 million and loans restructuring above USD 5 million.
- Management Board reviews and approves credit applications up to USD 2.5 million and loans restructuring up to USD 5 million.
- Credit Committee of the Bank and Small Credit Committee of the Bank review and approve credit applications up to UAH 10 million, and the Credit committee on restructuring – up to USD 5 million. Credit Committee and Small Credit Committee of the Bank meet usually two times per week, and the Credit committee on restructuring meets usually once a week.
- The individual right to approve new credit decisions with the limits below UAH 1.5 million is granted separately to the Deputies of the Chairman of the Board, the directors of departments of the Head Office and the directors of independent branches.

Loan applications originated by the relevant client relationship managers are passed on to the relevant credit committee for approval of credit limit. Exposure to credit risk is also managed, in part, by obtaining collateral and corporate and personal guarantees.

In order to monitor credit risk exposures, regular reports are produced by the credit department's officers based on a structured analysis focusing on the customer's business and financial performance. Any significant exposures against customers with deteriorating creditworthiness are reported to and reviewed by the Management Board.

The Bank's credit monitoring department reviews ageing analysis of outstanding loans and follows up on past due balances. Management therefore considers it appropriate to provide ageing and other information about credit risk as disclosed in Notes 9, 10, 11, 12 and 15.

Credit risk for off-balance sheet financial instruments is defined as the possibility of sustaining a loss as a result of another party to a financial instrument failing to perform in accordance with the terms of the contract. The Group uses the same credit policies in assuming conditional obligations as it does for on-balance sheet financial instruments, through established credit approvals, risk control limits and monitoring procedures.

The report on the analysis of the credit profile of the Group, and also the detailed analysis of the level of credit risk per the credit profile in general and per branches of crediting is presented to management bodies of the Group on a monthly basis.

29 Financial Risk Management (Continued)

Market risk. The Group takes on exposure to market risks. Market risks arise from open positions in: (a) currency, (b) interest rate and (c) equity products, all of which are exposed to general and specific market movements. Management sets limits on the value of risk that may be accepted, which is monitored on a daily basis. However, the use of this approach does not prevent losses outside of these limits in the event of more significant market movements.

Currency risk. In respect of currency risk, management sets limits on the level of exposure by currency and in total for both overnight and intra-day positions, which are monitored daily. Currency risk results from the Group having open positions in different currencies. Such positions are calculated as differences between assets and liabilities in the same currency as of the reporting date. The Group evaluates, monitors and sets limits for long and short foreign exchange open positions by currency using hryvnia as its base currency. Open position limits are set at the level established by the NBU regulations calculated as a percentage of open currency position of regulatory capital of the Group. Compliance with these limits is monitored by Market and Liquidity Risk Department on a daily basis. The Market and Liquidity Risk Department reports on a weekly basis to Asset, Liability and Tariffs Management Committee (ALTCO).

The table below summarises the Group's exposure to foreign currency exchange rate risk at the end of the reporting period:

<i>In thousands of Ukrainian hryvnias</i>	At 31 December 2013				At 31 December 2012			
	Monetary financial assets	Monetary financial liabilities	Derivatives	Net position	Monetary financial assets	Monetary financial liabilities	Net position	
Ukrainian hryvnias	2,251,173	2,139,069	(68,349)	43,755	2,088,955	2,059,325	29,630	
US Dollars	994,774	1,176,639	67,941	(113,924)	1,218,416	1,284,833	(66,417)	
Euros	349,843	341,152	-	8,691	502,559	501,949	610	
British pounds	814	851	-	(37)	1,027	919	108	
Russian Roubles	4,477	4,354	-	123	6,752	5,504	1,248	
Other	9,452	8,551	-	901	9,402	6,921	2,481	
Total	3,610,533	3,670,616	(408)	(60,491)	3,827,111	3,859,451	(32,340)	

The above analysis includes only monetary assets and liabilities. Investments in equities and non-monetary assets are not considered to give rise to any material currency risk

The following table presents sensitivities of profit or loss and equity to reasonably possible changes in exchange rates applied at the end of the reporting period relative to the Group's functional currency, with all other variables held constant:

<i>In thousands of Ukrainian hryvnias</i>	At 31 December 2013		At 31 December 2012	
	Impact on profit or loss	Impact on equity	Impact on profit or loss	Impact on equity
US Dollar strengthening by 15% (2012: strengthening by 15%)	(17,089)	(17,089)	(9,963)	(9,963)
US Dollar weakening by 15% (2012: weakening by 15%)	17,089	17,089	9,963	9,963
Euro strengthening by 15% (2012: strengthening by 15%)	1,304	1,304	92	92
Euro weakening by 15% (2012: weakening by 15%)	(1,304)	(1,304)	(92)	(92)
Russian Rouble strengthening by 15% (2012: strengthening by 15%)	18	18	187	187
Russian Rouble weakening by 15% (2012: weakening by 15%)	(18)	(18)	(187)	(187)
Other currencies strengthening by 15% (2012: strengthening by 15%)	73	73	389	389
Other currencies weakening by 15% (2012: weakening by 15%)	(73)	(73)	(389)	(389)
Total	-	-	-	-

The exposure was calculated only for monetary balances denominated in currencies other than the functional currency of the Group.

Interest rate risk. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. Management monitors on a daily basis and sets limits on the level of mismatch of interest rate repricing that may be undertaken.

29 Financial Risk Management (Continued)

The table below summarises the Group's exposure to interest rate risks. The table presents the aggregated amounts of the Group's financial assets and liabilities at carrying amounts, categorised by the earlier of contractual interest repricing or maturity dates.

<i>In thousands of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	Over 1 year	Non-monetary	Total
31 December 2013						
Total financial assets	725,126	317,096	783,247	1,785,064	30	3,610,563
Total financial liabilities	(1,858,281)	(458,124)	(996,574)	(358,045)	-	(3,671,024)
Net interest sensitivity gap at 31 December 2013	(1,133,155)	(141,028)	(213,327)	1,427,019	30	(60,461)
31 December 2012						
Total financial assets	1,044,870	374,552	781,962	1,625,727	30	3,827,141
Total financial liabilities	(2,522,418)	(562,941)	(476,088)	(298,004)	-	(3,859,451)
Net interest sensitivity gap at 31 December 2012	(1,477,548)	(188,389)	305,874	1,327,723	30	(32,310)

At 31 December 2013, if interest rates on financial instruments denominated in USD at that date had been 200 basis points higher/lower with all other variables held constant, loss for the year would have been UAH 7,910 thousand higher/lower (2012: UAH 6,291 thousand higher/lower if interest rates had been 200 basis points higher/lower), mainly as a result of higher/lower interest expense on variable interest liabilities.

At 31 December 2013, if interest rates on financial instruments denominated in EUR at that date had been 200 basis points higher/lower with all other variables held constant, loss for the year would have been UAH 1,846 thousand higher/lower (2012: UAH 4,256 thousand higher/lower if interest rates had been 200 basis points higher/lower), mainly as a result of higher/lower interest expense on variable interest liabilities.

At 31 December 2013, if interest rates on financial instruments nominated in UAH at that date had been 200 basis points higher/lower with all other variables held constant, loss for the year would have been UAH 8,352 thousand higher/lower (2012: UAH 1,934 thousand higher/lower if interest rates had been 200 basis points higher/lower), mainly as a result of higher/lower interest expense on variable interest liabilities. Other components of equity would have been UAH 13,324 thousand lower/higher (2012: UAH 4,272 thousand lower/higher) if interest rates had been 200 basis points higher/lower, as a result of a decrease/increase in the fair value of fixed rate financial assets classified as available for sale.

The Group monitors interest rates for its financial instruments. The table below summarises interest rates based on reports reviewed by key management personnel:

<i>% per annum</i>	2013				2012			
	UAH	USD	Euro	Other	UAH	USD	Euro	Other
Assets								
Cash and cash equivalents	0%	0%	0%	0%	0%	0%	0%	0%
Securities at fair value through profit or loss	9%	-	-	-	7%	-	-	-
Due from other banks	0%	0%	-	-	0%	0%	0%	-
Loans and advances to customers	15%	9%	7%	-	20%	10%	8%	-
Debt investment securities available for sale	17%	8%	-	-	16%	8%	-	-
Investment securities held to maturity	2%	9%	-	-	3%	9%	-	-
Liabilities								
Due to other banks	6.5%	3%	1%	-	8%	4%	0%	-
Customer accounts								
- current and settlement accounts	2%	0%	0%	0%	2%	0%	0%	0%
- term deposits	15%	3%	1%	-	20%	4%	2%	-
Subordinated debt	-	1%	-	-	-	1%	-	-

The sign “-“ in the table above means that the Group does not have the respective assets or liabilities in the corresponding currency.

29 Financial Risk Management (Continued)

Other price risk. The Group is exposed to prepayment risk through providing fixed rate loans, including mortgages, which give the borrower the right to early repay the loans. The Group's current year loss and equity at the end of the current reporting period would not have been significantly impacted by changes in prepayment rates because such loans are carried at amortised cost and the prepayment right is at or close to the amortised cost of the loans and advances to customers.

Geographical risk concentrations. The geographical concentration of the Group's assets and liabilities at 31 December 2013 is set out below:

<i>In thousands of Ukrainian hryvnias</i>	Ukraine	OECD	Non-OECD	Total
Assets				
Cash and cash equivalents and mandatory reserves	266,101	94,957	4,976	366,034
Securities at fair value through profit or loss	68,992	-	-	68,992
Due from other banks	7,345	-	33	7,378
Loans and advances to customers	2,366,135	13	64	2,366,212
Investment securities available for sale	685,610	-	-	685,610
Investment securities held to maturity	102,549	-	-	102,549
Other financial assets	13,774	9	5	13,788
Total financial assets	3,510,506	94,979	5,078	3,610,563
Non-financial assets	604,403	1,657	72	606,132
Total assets	4,114,909	96,636	5,150	4,216,695
Liabilities				
Due to other banks	32,770	545,017	-	577,787
Customer accounts	2,701,601	84,398	2,023	2,788,022
Other financial liabilities	15,063	-	-	15,063
Subordinated debt	-	290,152	-	290,152
Total financial liabilities	2,749,434	919,567	2,023	3,671,024
Non-financial liabilities	64,041	1	278	64,320
Total liabilities	2,813,475	919,568	2,301	3,735,344
Net position	1,301,434	(822,932)	2,849	481,351
Credit related commitments	3,164	24,881	-	28,045

Assets, liabilities and credit related commitments have been classified based on the country in which the counterparty is located. Balances with Ukrainian counterparties actually outstanding to/from offshore companies of these Ukrainian counterparties are allocated to the caption "Ukraine". Cash on hand, premises, leasehold improvements and equipment have been allocated based on the country in which they are physically held.

29 Financial Risk Management (Continued)

The geographical concentration of the Group's assets and liabilities at 31 December 2012 is set out below:

<i>In thousands of Ukrainian hryvnias</i>	Ukraine	OECD	Non-OECD	Total
Assets				
Cash and cash equivalents and mandatory reserves	277,127	590,323	5,845	873,295
Securities at fair value through profit or loss	38,678	-	-	38,678
Due from other banks	5,703	-	33	5,736
Loans and advances to customers	2,233,446	-	51	2,233,497
Investment securities available for sale	536,121	-	-	536,121
Investment securities held to maturity	122,799	-	-	122,799
Other financial assets	17,002	8	5	17,015
Total financial assets	3,230,876	590,331	5,934	3,827,141
Non-financial assets	726,455	228	-	726,683
Total assets	3,957,331	590,559	5,934	4,553,824
Liabilities				
Due to other banks	21,764	672,131	-	693,895
Customer accounts	2,770,166	70,878	3,985	2,845,029
Other financial liabilities	36,781	-	-	36,781
Subordinated debt	-	283,746	-	283,746
Total financial liabilities	2,828,711	1,026,755	3,985	3,859,451
Non-financial liabilities	18,836	1	2	18,839
Total liabilities	2,847,547	1,026,756	3,987	3,878,290
Net position	1,109,784	(436,197)	1,947	675,534
Credit related commitments	17,749	-	-	17,749

Liquidity risk. Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Group is exposed to daily calls on its available cash resources from overnight deposits, current accounts, maturing deposits, loan drawdowns, guarantees and from margin and other calls on cash-settled derivative instruments. The Group does not maintain cash resources to meet all of these needs as experience shows that a minimum level of reinvestment of maturing funds can be predicted with a high level of certainty. Liquidity risk is managed by the Asset/Liability Committee of the Bank.

The Group seeks to maintain a stable funding base primarily consisting of amounts due to other banks, corporate and retail customer deposits, debt securities and subordinated debt. The Group invests the funds in portfolios of liquid assets, in order to be able to respond quickly and smoothly to unforeseen liquidity requirements.

The liquidity management of the Bank requires considering the level of liquid assets necessary to settle obligations as they fall due; maintaining access to a range of funding sources; maintaining funding contingency plans; and monitoring balance sheet liquidity ratios against regulatory requirements. The Bank calculates liquidity ratios on a daily basis in accordance with the requirement of the National Bank of Ukraine. These ratios are:

- Instant liquidity ratio (N4), which is calculated as the ratio of highly-liquid assets to liabilities payable on demand. The ratio was 34% at 31 December 2013, with the required ratio being not less than 20% (the ratio was 101% at 31 December 2011, with the required ratio being not less than 20%).
- Current liquidity ratio (N5), which is calculated as the ratio of liquid assets to liabilities maturing within 31 calendar days. The ratio was 88% at 31 December 2013, with the required ratio being not less than 40% (the ratio was 101% at 31 December 2012, with the required ratio being not less than 40%).
- Short-term liquidity ratio (N6), which is calculated as the ratio of liquid assets to liabilities with original maturity of up to one year. The ratio was 68% at 31 December 2013, with the required ratio being not less than 60% (the ratio was 83% at 31 December 2012, with the required ratio being not less than 60%).

29 Financial Risk Management (Continued)

The Treasury Department receives information about the liquidity profile of the financial assets and liabilities. The Treasury Department then provides for an adequate portfolio of short-term liquid assets, largely made up of liquid securities, deposits with banks and other inter-bank facilities, to ensure that sufficient liquidity is maintained within the Group as a whole.

The table below shows liabilities at 31 December 2013 by their remaining contractual maturity. The amounts disclosed in the maturity table are the contractual undiscounted cash flows, including gross loan commitments and financial guarantees. Such undiscounted cash flows differ from the amount included in the statement of financial position because the amount in the statement of financial position is based on discounted cash flows.

When the amount payable is not fixed, the amount disclosed is determined by reference to the conditions existing at the end of the reporting period. Foreign currency payments are translated using the spot exchange rate at the end of the reporting period.

The maturity analysis of financial liabilities at 31 December 2013 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 12 months to 5 years	Over 5 years	Total
Liabilities						
Due to other banks	160,563	5,671	6,828	437,398	-	610,460
Customer accounts	1,324,228	471,645	917,405	139,545	56,859	2,909,682
Subordinated debt	-	-	-	334,659	-	334,659
<i>Gross settled forwards:</i>						
- inflows	(67,941)	-	-	-	-	(67,941)
- outflows	68,349	-	-	-	-	68,349
Other financial liabilities	14,571	43	273	176	-	15,063
Credit related commitments	-	5,281	22,710	54	-	28,045
Total potential future payments for financial obligations	1,499,770	482,640	947,216	911,832	56,859	3,898,317

Liquidity requirements to support calls under guarantees and standby letters of credit are considerably less than the amount of the commitment disclosed in the above maturity analysis because the Group does not generally expect the third party to draw funds under the agreement.

The maturity analysis of financial liabilities at 31 December 2012 is as follows:

<i>In thousands of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 12 months to 5 years	Over 5 years	Total
Liabilities						
Due to other banks	280,399	3,906	7,246	407,228	-	698,779
Customer accounts	1,374,594	404,959	941,563	212,675	75,244	3,009,035
Subordinated debt	-	-	-	219,851	119,645	339,496
Other financial liabilities	36,701	5	45	22	8	36,781
Credit related commitments	-	61	16,603	1,085	-	17,749
Total potential future payments for financial obligations	1,691,694	408,931	965,457	840,861	194,897	4,101,840

As disclosed in Note 31, as at 31 December 2013 and 31 December 2012 the Group breached certain financial covenants set by loan agreements with EBRD, therefore all loans from EBRD were classified on demand in the above analysis.

Customer accounts are classified in the above analysis based on contractual maturities. However, in accordance with Ukrainian Civil Code, individuals have a right to withdraw their deposits prior to maturity if they forfeit their right to accrued interest.

29 Financial Risk Management (Continued)

The Group does not use the above undiscounted maturity analysis to manage liquidity. Instead, the Group monitors expected maturities, which may be summarised as follows at 31 December 2013:

<i>In thousands of Ukrainian hryvnias</i>	Demand and less than 1 month	From 1 to 3 months	From 3 to 12 months	From 12 months to 5 years	Over 5 years	Total
At 31 December 2013						
Financial assets	569,663	131,864	653,112	1,708,010	547,884	3,610,533
Financial liabilities	1,481,427	417,051	898,130	834,723	39,693	3,671,024
Net liquidity gap based on expected maturities	(911,764)	(285,187)	(245,018)	873,287	508,191	(60,491)
At 31 December 2012						
Financial assets	1,002,836	198,669	774,968	1,284,242	566,426	3,827,141
Financial liabilities	2,039,412	373,111	878,884	390,426	177,618	3,859,451
Net liquidity gap based on expected maturities	(1,036,576)	(174,442)	(103,916)	893,816	388,808	(32,310)

As disclosed in Note 31, as at 31 December 2013 and 31 December 2012 the Group breached certain financial covenants set by loan agreements with EBRD. Although the lender has the right to require early repayment of these loans, the Group does not expect that such a request would be received. Therefore these loans were classified in the table above according to their expected maturity.

The matching and/or controlled mismatching of the maturities and interest rates of assets and liabilities is fundamental to the management of the Group. It is unusual for banks ever to be completely matched since business transacted is often of an uncertain term and of different types. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The maturities of assets and liabilities and the ability to replace, at an acceptable cost, interest-bearing liabilities as they mature, are important factors in assessing the liquidity of the Group and its exposure to changes in interest and exchange rates.

Management believes that in spite of a substantial portion of customer accounts being on demand, diversification of these deposits by number and type of depositors, and the past experience of the Group would indicate that these customer accounts provide a long-term and stable source of funding for the Group.

30 Management of Capital

The Group's objectives when managing capital are: (i) to comply with the capital requirements set by the National Bank of Ukraine, (ii) to safeguard the Group's ability to continue as a going concern, and (iii) to maintain a sufficient capital base to achieve a capital adequacy ratio based on the Basel Accord of at least 8%. The Group considers total capital under management to be equity as shown in the statement of financial position. The amount of capital that the Group managed as of 31 December 2013 was UAH 481,351 thousand (2012: UAH 675,534 thousand). Compliance with capital adequacy ratios set by the National Bank of Ukraine is monitored monthly with reports outlining their calculation reviewed and signed by the Bank's Chairman of the Board and Chief Accountant. Other objectives of capital management are evaluated annually

In December 2013 the Group received from parent company (PKO BP S.A.) non-repayable financial assistance in the amount of USD 20,681 thousand aimed to prevent incompliance with capital requirements. This transaction is recognized in equity.

Under the current capital requirements set by the National Bank of Ukraine banks have to maintain a ratio of regulatory capital to risk weighted assets ("statutory capital ratio") above a prescribed minimum level. Regulatory capital is based on the Bank's reports prepared under Ukrainian accounting standards and comprises:

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Primary capital	390,935	276,470
Additional capital	390,935	276,470
Diversion	(2,684)	(4,348)
Total regulatory capital	779,186	548,592

30 Management of Capital (Continued)

The Group is also subject to minimum capital requirements established by covenants stated in loan agreements, including capital adequacy levels calculated in accordance with the requirements of the Basel Accord, as defined in the International Convergence of Capital Measurement and Capital Standards (updated April 1998) and Amendment to the Capital Accord to incorporate market risks (updated November 2005), commonly known as Basel I. The composition of the Group's capital calculated in accordance with Basel Accord is as follows:

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Tier 1 capital		
Share capital	1,918,969	1,918,969
Accumulated deficit	(1,592,678)	(1,405,917)
Total tier 1 capital	326,291	513,052
Tier 2 capital		
Subordinated debt (limited to 50% of Tier 1 capital)	163,146	256,526
Revaluation reserve	155,060	162,482
Total tier 2 capital	318,206	419,008
Total capital	644,497	932,060

The Group has complied with all externally imposed capital requirements as at 31 December 2013. Refer also to Note 31.

31 Contingencies and Commitments

Legal proceedings. From time to time and in the normal course of business, claims against the Group may be received. On the basis of its own estimates and both internal and external professional advice management is of the opinion that no material losses will be incurred in respect of claims and accordingly no provision has been made in these financial statements.

At 31 December 2013, the Group was engaged in litigation proceedings with two customers who filed a claim against the Group for damages totalling UAH 12 million. No provision has been made as on the basis of its own estimates and external professional advice, the Group's management believes that the risk of loss for the Group is possible but not probable.

Tax legislation. Ukrainian tax and customs legislation is subject to varying interpretations and changes, which can occur frequently. Management's interpretation of such legislation as applied to the transactions and activity of the Group may be challenged by the relevant authorities.

The Ukrainian tax authorities may be taking a more assertive position in their interpretation of the legislation and assessments, and it is possible that transactions and activities that have not been challenged in the past may be challenged. As a result, significant additional taxes, penalties and interest may be assessed.

The State Tax Inspection of Lviv tried to limit the Group's expenses from factoring arrangements with the related party to the amount of income received under the respective agreement. The Group filed a claim to Lviv District Administrative Court and won it. The tax authorities appealed against such decision to the court of appeal and the court of appeal confirmed previous court decision. However, on 19 November 2013 High Administrative Court of Ukraine made decision in favour of Tax Inspection. As a result of this decision deferred tax asset in respect of tax loss carried forward was written off and current income tax liability was accrued.

As a result of the most recent tax inspection, the State Tax Inspection of Lviv presented report, dated 6 February 2013, that includes a number of issues resulting in additional tax obligations and penalties to be paid. The Group's management believes that the probability of successful objection of these claims act by the Group is high and the risk of significant loss for the Group is remote.

Fiscal periods remain open to review by the authorities in respect of taxes for three calendar years preceding the year of review. Under certain circumstances reviews may cover longer periods.

31 Contingencies and Commitments (Continued)

On 1 September 2013 the Law “On Changes to the Tax Code of Ukraine in respect of transfer pricing rules” came into effect. The new transfer pricing rules are much more detailed than previous legislation and, to a certain extent, better aligned with the international transfer pricing principles developed by the Organisation for Economic Cooperation and Development (OECD). The new legislation allows the tax authorities to make transfer pricing adjustments and impose additional tax liabilities in respect of controlled transactions (transactions with related parties and some types of transactions with unrelated parties), if the transaction price is not arm's length and not supported by relevant documentation. The threshold for the reporting of controlled transactions is UAH 50 million (net of VAT, for all transactions with one counterparty cumulatively for the year). According to the tax changes, the Company is required to submit a report with details on controlled transactions by 1 May 2014, and relevant transfer pricing documentation not later than 1 month following the request of the tax office (if any).

Management believes that its pricing policy is arm's length and it has implemented internal controls to be in compliance with the new transfer pricing legislation.

Given that the practice of implementation of the new transfer pricing rules in Ukraine has not yet developed, the impact of any challenge of the Group's transfer prices cannot be reliably estimated; however, it may eventually be significant to the financial position and/or the overall operations of the Group depending on how the local tax authorities implement the final rules

Capital expenditure commitments. At 31 December 2013 the Group has contractual capital expenditure commitments in respect of premises and equipment totalling UAH 7,665 thousand (2012: UAH 4,670 thousand) and in respect of intangible assets in the amount of UAH 2,296 thousand (2012: UAH 8,136 thousand).

The Group has already allocated the necessary resources in respect of these commitments. The Group believes that future net income and funding will be sufficient to cover this and any similar such commitments.

Operating lease commitments. The Group does not have non-cancellable operating leases.

Compliance with covenants. The Group is subject to certain covenants related primarily to loans from other banks. Non-compliance with such covenants may result in negative consequences for the Group including growth in the cost of borrowings and declaration of default.

There are certain financial covenants under agreements with European Bank for Reconstruction and Development. In particular, the Group is required to maintain a certain level of capital to risk weighted assets ratio, highly liquid assets to demand deposits ratio, liquid assets to short-term liabilities ratio, open credit exposure ratio, maximum exposure to related parties to capital ratio, aggregate related party exposure ratio, share of problem loans to gross loans and to be in compliance with the NBU prudential requirements.

As at 31 December 2013 the Group increased ratio of loans past due over 30 days to gross loans to 24.54% (2012: this ratio was 20.02%) which is higher than required ratio under agreements with EBRD.

This non-compliance with loan covenants gives the EBRD legal right to demand early repayment of the loans. As at the date of issue of these financial statements the Group had not received from EBRD neither requirement to early repay the loans nor a waiver from this requirement.

Credit related commitments. The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees and standby letters of credit, which represent irrevocable assurances that the Group will make payments in the event that a customer can not meet its obligations to third parties, carry the same credit risk as loans. Documentary and commercial letters of credit, which are written undertakings by the Group on behalf of a customer authorising a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions, are collateralised by the underlying shipments of goods to which they relate or cash deposits and therefore carry less risk than a direct borrowing.

31 Contingencies and Commitments (Continued)

Commitments to extend credit represent unused portions of authorisations to extend credit in the form of loans, guarantees or letters of credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments, if the unused amounts were to be drawn down. However, the likely amount of loss is less than the total unused commitments since most commitments to extend credit are contingent upon customers maintaining specific credit standards. The Group monitors the term to maturity of credit related commitments because longer-term commitments generally have a greater degree of credit risk than shorter-term commitments. Outstanding credit related commitments are as follows:

<i>In thousands of Ukrainian hryvnias</i>	Note	2013	2012
Guarantees issued		38,457	21,046
Less: Provision for credit related commitments	19	(499)	(81)
Less: Cash covered credit related commitments	18	(9,913)	(3,216)
Total credit related commitments		28,045	17,749

Credit related commitments are denominated in currencies as follows:

<i>In thousands of Ukrainian hryvnias</i>	2013	2012
Ukrainian hryvnias	3,168	2,512
Euros	18,639	15,237
Other	6,238	15,237
Total	28,045	17,749

As at 31 December 2013 all commitments to extend credit are revocable and amounted to UAH 370,879 thousand (2012: UAH 180,037 thousand).

The total outstanding contractual amount of commitments to extend credit, import letters of credit, and guarantees does not necessarily represent future cash requirements, as these financial instruments may expire or terminate without being funded. The fair value of credit related commitments was UAH 499 thousand at 31 December 2012 (2012: UAH 81 thousand).

32 Fair Value of Financial Instruments

Fair value measurements are analysed by level in the fair value hierarchy as follows: (i) level one are measurements at quoted prices (unadjusted) in active markets for identical assets or liabilities, (ii) level two measurements are valuations techniques with all material inputs observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and (iii) level three measurements are valuations not based on observable market data (that is, unobservable inputs). Management applies judgement in categorising financial instruments using the fair value hierarchy. If a fair value measurement uses observable inputs that require significant adjustment, that measurement is a Level 3 measurement. The significance of a valuation input is assessed against the fair value measurement in its entirety.

(a) Recurring fair value measurements

Recurring fair value measurements are those that the accounting standards require or permit in the statement of financial position at the end of each reporting period. The level in the fair value hierarchy into which the recurring fair value measurements are categorised are as follows:

<i>In thousands of Ukrainian hryvnias</i>	31 December 2013				31 December 2012			
	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
ASSETS AT FAIR VALUE								
FINANCIAL ASSETS								
<i>Securities at fair value through profit or loss</i>								
- Ukrainian Government bonds	-	68,992	-	68,992	38,678	-	-	38,678
<i>Investment securities available for sale</i>								
- Ukrainian Government bonds	-	545,017	-	545,017	-	536,091	-	536,091
- Corporate bonds	-	140,563	-	140,563	-	-	-	-
- Corporate shares	-	-	30	30	-	-	30	30
NON-FINANCIAL ASSETS								
- Premises	-	327,503	-	327,503	-	353,402	-	353,402
- Investment properties	-	15,536	-	15,536	-	-	-	-
TOTAL ASSETS RECURRING FAIR VALUE MEASUREMENTS	-	1,097,611	30	1,097,641	-	928,171	30	928,171
LIABILITIES CARRIED AT FAIR VALUE								
FINANCIAL LIABILITIES								
<i>Other financial liabilities</i>								
- Foreign exchange forward contracts	-	408	-	408	-	-	-	-
TOTAL LIABILITIES RECURRING FAIR VALUE MEASUREMENTS	-	408	-	408	-	-	-	-

The description of valuation technique and description of inputs used in the fair value measurement for level 2 measurements at 31 December 2013:

<i>In thousands of Ukrainian hryvnias</i>	Fair value	Valuation technique	Inputs used
ASSETS AT FAIR VALUE			
FINANCIAL ASSETS			
<i>Securities at fair value through profit or loss</i>			
- Ukrainian Government bonds	68,992	Market approach	Quoted prices on less active market

TOTAL	-	3,555,570	-	3,671,024	-	3,737,639	-	3,859,451

The fair values in level 2 of fair value hierarchy were estimated using the discounted cash flows valuation technique. The fair value of floating rate instruments that are not quoted in an active market was estimated to be equal to their carrying amount. The fair value of unquoted fixed interest rate instruments was estimated based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risk and remaining maturity.

For assets, the Group used assumptions about counterparty's incremental borrowing rate and prepayment rates. Liabilities were discounted at the Group's own incremental borrowing rate. Liabilities due on demand were discounted from the first date that the amount could be required to be paid by the Group.

33 Presentation of Financial Instruments by Measurement Categories

For the purposes of measurement, IAS 39, *Financial Instruments: Recognition and Measurement*, classifies financial assets into the following categories: (a) loans and receivables; (b) available for sale financial assets; (c) financial assets held to maturity and (d) financial assets at fair value through profit or loss (“FVTPL”). Financial assets at fair value through profit or loss have two subcategories: (i) assets designated as such upon initial recognition, and (ii) those classified as held for trading. The following table provides a reconciliation of financial assets with these measurement categories as of 31 December 2013:

<i>In thousands of Ukrainian hryvnias</i>	Loans and receivables	Available for sale assets	Assets desig- nated at FVTPL	Held to maturity	Total
ASSETS					
Cash and cash equivalents and mandatory reserves	366,034	-	-	-	366,034
Securities at fair value through profit or loss	-	-	68,992	-	68,992
Due from other banks					
- Guarantee deposits	7,378	-	-	-	7,378
Loans and advances to customers					
- Corporate loans	1,479,077	-	-	-	1,479,077
- Loans to individuals - consumer loans	560,793	-	-	-	560,793
- Loans to individuals – mortgage loans	326,342	-	-	-	326,342
Investment securities available for sale	-	685,610	-	-	685,610
Investment securities held to maturity	-	-	-	102,549	102,549
Other financial assets	13,788	-	-	-	13,788
TOTAL FINANCIAL ASSETS	2,753,412	685,610	68,992	102,549	3,610,563

The following table provides a reconciliation of financial assets with these measurement categories as of 31 December 2012:

<i>In thousands of Ukrainian hryvnias</i>	Loans and receivables	Available for sale assets	Assets desig- nated at FVTPL	Held to maturity	Total
ASSETS					
Cash and cash equivalents and mandatory reserves	873,295	-	-	-	873,295
Securities at fair value through profit or loss	-	-	38,678	-	38,678
Due from other banks					
- Guarantee deposits	5,736	-	-	-	5,736
Loans and advances to customers					
- Corporate loans	1,496,052	-	-	-	1,496,052
- Loans to individuals - consumer loans	396,987	-	-	-	396,987
- Loans to individuals – mortgage loans	340,458	-	-	-	340,458
Investment securities available for sale	-	536,121	-	-	536,121
Investment securities held to maturity	-	-	-	122,799	122,799
Other financial assets	17,015	-	-	-	17,015
TOTAL FINANCIAL ASSETS	3,129,543	536,121	38,678	122,799	3,827,141

As of 31 December 2013 and 31 December 2012 all of the Group’s financial liabilities except for derivatives were carried at amortised cost. Derivatives belong to the fair value through profit or loss measurement category.

34 Related Party Transactions

Parties are generally considered to be related if the parties are under common control or one party has the ability to control the other party or can exercise significant influence over the other party in making financial or operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form.

At 31 December 2013, the outstanding balances with related parties were as follows:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Correspondent accounts with other banks	5,632	-	-
Gross amount of loans and advances to customers (contractual interest rate: in USD – 2.8%)	-	-	178
Impairment provisions for loans and advances to customers at 31 December	-	-	(24)
Other assets	619	-	-
Correspondent accounts and overnight placements of other banks	125,594	-	-
Term placements and loans from other banks (contractual interest rate: in USD – 3.17%, in EUR – 0.8%)	399,650	-	-
Customer accounts (contractual interest rate: in USD - 0.1% - 2.75%; in EUR - 0.5%; in PLN - 0.5%; in UAH – 0.1% - 20%)	-	30,989	1,046
Subordinated debt (contractual interest rate: in USD – 1.0695%)	290,152	-	-
Other liabilities	-	284	1,571

The income and expense items with related parties for 2013 were as follows:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Interest income	-	624	6
Interest expense	(11,378)	(2,511)	72
Other operating income	-	41	-
Reversal of provision for loan impairment	-	-	4
Fee and commission income	1	143	14
Fee and commission expense	(540)	(2,788)	-

At 31 December 2013, other rights and obligations with related parties were as follows:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Loan commitments received	2,660	-	-
Loan commitments granted	24,881	-	10

As disclosed in Note 10, as at 31 December 2013 the Group's parent company pledged as collateral for a number of lending transactions cash deposits with other bank in the amount of UAH 59,306 thousand (2012: UAH 10,819 thousand).

Aggregate amounts lent to and repaid by related parties during 2013 were:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Amounts lent to related parties during the year	-	-	-
Amounts repaid by related parties during the period	-	(4,000)	(26)

34 Related Party Transactions (Continued)

As disclosed in Note 30, in December 2013 the Group received from parent company (PKO BP S.A.) non-repayable financial assistance in the amount of USD 20,681 thousand aimed to prevent incompliance with capital requirements. This financial assistance and related income tax in the amount of UAU 32,041 thousand were recognized in equity.

At 31 December 2012, the outstanding balances with related parties were as follows:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Correspondent accounts with other banks	4,936	-	-
Gross amount of loans and advances to customers (contractual interest rate: in UAH – 20.5%; in USD – 2.8%)	-	3,991	204
Impairment provisions for loans and advances to customers at 31 December	-	-	(27)
Other assets	248	3	-
Correspondent accounts and overnight placements of other banks	18,508	-	-
Term placements and loans from other banks (contractual interest rate: in USD – 3.21 - 3.71%, in PLN – 0.25%)	621,219	-	-
Customer accounts (contractual interest rate: in UAH – 0.1 – 27.0%; in EUR – 0.5%; in USD – 0.1 – 3.25%; in PLN – 0.1 – 0.5%)	-	26,083	755
Subordinated debt (contractual interest rate: in USD – 1.0695%)	283,746	-	-
Other liabilities	-	583	1,603

The income and expense items with related parties for 2012 were as follows:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Interest income	-	772	11
Interest expense	(10,196)	(2,628)	(19)
Other operating income	-	25	-
Reversal of provision for loan impairment	-	(23,753)	11
Fee and commission income	1	169	18
Fee and commission expense	(457)	(3,736)	-

At 31 December 2012, other rights and obligations with related parties were as follows:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Cash deposits received as collateral	10,819	-	-
Loan commitments received	2,582	-	-
Loan commitments granted	-	3,900	-

Aggregate amounts lent to and repaid by related parties during 2012 were:

<i>In thousands of Ukrainian hryvnias</i>	Parent company	Entities under common control	Key management personnel
Amounts lent to related parties during the year	-	18,564	-
Amounts repaid by related parties during the period	-	(14,564)	(164)

34 Related Party Transactions (Continued)

Key management compensation is presented below:

<i>In thousands of Ukrainian hryvnias</i>	2013		2012	
	Expense	Accrued liability	Expense	Accrued liability
<i>Short-term benefits:</i>				
- Salaries	9,363	257	8,709	247
- Annual bonus	1,202	1,300	2,632	1,300
- Termination bonus	-	778	-	967
- State pension and social security costs	585	185	601	152
TOTAL	11,150	2,520	11,942	2,666

Short-term benefits fall due wholly within twelve months after the end of the period in which management rendered the related services.

35 Business Combinations

In March 2012, the Group obtained control through acquisition of 100% of interest in Finance Company “Idea Capital” LLC for total consideration in the amount of UAH 4,100 thousand. The acquired subsidiary is expected to increase the Group’s penetration of its chosen retail and corporate markets and is expected to improve profitability.

In accordance with IFRS 3 “Business Combinations”, the Group accounted for this acquisition based on fair values of the identifiable assets acquired, and liabilities and contingent liabilities assumed.

Details of the assets and liabilities acquired and goodwill arising are as follows:

<i>In thousands of Ukrainian hryvnias</i>	Attributed fair value
Cash and cash equivalents	3,322
Other assets	18
Other liabilities	(6)
Fair value of identifiable net assets of subsidiary	3,334
Goodwill arising from the acquisition	766
Less: Cash and cash equivalents of subsidiary acquired	(3,322)
Outflow of cash and cash equivalents on acquisition	778

The Group analysed goodwill arising from the acquisition and recognized its impairment during 2012.

The acquired subsidiary did not generate significant revenue and expenses in 2012.

36 Events After the Reporting Period

In 2014 Ukrainian national currency depreciated by 22% against US Dollars and by 23% against EUR and as at 18 March 2014 principal rates of exchange were USD 1 = UAH 9.7568 and EUR 1 = UAH 13.5678. As a result of this depreciation for two months of 2014 the Group incurred foreign exchange losses in the amount of UAH 20,351 thousand mainly resulting from revaluation of net short position in US dollars.

In February 2014 the Group received non-repayable financial assistance from the parent company in the amount of USD 6,021 thousand.
